## 14-YEAR OLD BOY DROWNED IN SIGHT OF COMPANIONS

Got Beyond His Depth While Bathing at Newell's Landing.

Others Paid No Heed To His Cries For Help, Thinking He Was Trying to Fool Them.

MAGNIFICENT FATE OF YOUNG O'REILLY

His Father a Well-Known Potter of This City—Dynamite Used in the Search for the Body—How the Accident Occurred.

PATRICK O'REILLY, of Drury lane, died nearly 14 years, was drowned while bathing in the river near Newell's landing, opposite the West End, about 4 o'clock yesterday afternoon. In the afternoon the visitors were banqueted at Odd Fellows' hall, the gastronomical feature being on an elaborate scale.

Among those responding to toasts was P. A. Gavin, who spoke on "Our Country," and threw into the speech all the patriotism and spirit of an old-time war general. The special left Dennison shortly after 1 o'clock Monday morning, reaching Steubenville on the home trip at 2:30. The new lodge instituted starts off most auspiciously with 50 members.

## LIGHTNING STRUCK IT

SOME DAMAGE DONE TO THE COURT HOUSE AT LISBON.

Windows Shattered And Employees Alarmed By the Electric Sparks.

Lisbon, June 11.—(Special)—During a heavy electrical storm here this morning the court house was struck by lightning. The bolt struck the steeple and broke heavy plate glass about the building. Nobody was hurt and the damage was confined to shattered windows. Several of the employees were badly alarmed by sparks that flew from the electric light wires.

## PIDGEON WON A HOUSE

Bird Belonging to the Stark County Treasurer Brought Its Owner Luck.

Canton, June 11.—County Treasurer T. Harvey Smith received a telegram Saturday evening to the effect that he had secured one of the \$3,000 houses erected on the boulevard in Kenmore, a new town between Akron and Barberton. Mr. Smith recently purchased several lots. With each lot the purchaser was given a carrier pigeon and when one hundred lots were sold a race between the pigeons determined the owner of the house.

Mr. Smith's pigeon was the first to cover the distance required after being released with his mates, and in consequence won the race and the house.

## ORDAINED A MINISTER

Walter Shriver, of Columbiana, to Go to Wichita Classis.

Alliance, June 11.—There was a special meeting of Eastern Ohio classis at Immanuel Reformed church Sunday for the purpose of arranging for the ordination of licentiate Walter Shriver, of Columbiana, and dismissing him to the Wichita classis, synod of the interior.

The ordination took place in the Immanuel Reformed church last evening at 7:30. The committee of ordination: President of the classis, Dr. Kendig; secretary, Rev. G. W. Henning; and Rev. Amos Casselman.

## TO SETTLE THE STRIKE

President Haskins Will Make Another Effort at East Palestine.

Columbus, June 11.—President Haskins, of the Mine Workers' union, will go to East Palestine this week to make another effort to end the strike of the miners in that district. The miners are all idle and the men are standing firm. They have been out for over a month and have been drawing benefits since the first of June. They are in shape for a prolonged struggle.

## LABOR DAY PICNIC

Place For It to Be Fixed at a Meeting on Thursday.

The Labor day committee which has been deliberating for the past two weeks upon the location of the picnic for September 2, will meet at the residence of Chairman Orr on Thursday evening, at which time it is thought a selection will be made.

## A BIG MEETING OF ENGINEERS

Opening Session to Be Held Thursday Morning, June 20, at 10 a. m.

## GROWTH IS PHENOMENAL

A Banquet Will Be One of the Leading Features—The Local Committee Have Been Busy for Some Time With the Arrangements.

The state convention of the Ohio stationary engineers will be held in this city next week, the opening session having been arranged to open at 10 a. m. Thursday morning.

A committee composed of J. E. Anderson, chairman; Robert A. Orin, secretary, and Messrs. Morris Baxter, C. Gould, Jerry McMillan, Jeff Kerr, E. W. Derringer and A. W. Phillips, of Wellsville, has been appointed and the members have been busy with the arrangements for several weeks. The program will be an interesting one and will be completed at the meeting on Thursday evening of this week.

At least 80 delegates will be present from various sections of the state, and in addition to these there will be perhaps as many more visitors in the person of agents from the supply houses.

Chief Examiner Collier and Deputy Miller, both of whom are members of the society, will be in attendance, and are expected to make interesting reports, touching upon the matter of liability.

One of the pleasing features of the program and one which has already been arranged for is a trolley ride and banquet at Columbian park. The committee have spared neither time nor expense in preparing for this feature, and it promises to be the most elaborate ever held at that resort. The toastmaster has not yet been appointed, but will in all probability be selected at Thursday's meeting.

The morning session of the convention will be presided over by President Fred Yeager, of Cincinnati, and will be given over to the reception of the visitors, who will be welcomed by Mayor Davidson and a number of the members of the local branch. Calhoun association No. 41 is one of the largest in the state, and during the past year has been spreading out until a majority of the engineers from the smaller towns in this vicinity have been taken into the local.

The membership throughout the state shows a phenomenal growth, having increased its membership the past year over 500 per cent. The meeting next week will be the best attended and most interesting ever held, and the fact that the movement in favor of universal license will receive a great deal of attention at this meeting, and will make the session doubly interesting.

## AN ORGANIZATION

Of Stationary Engineers Has Been Effectuated at Salem.

Salem, June 11.—Salem branch No. 58, National Association of Stationary Engineers, has been organized with the following officers:

President, Henry Hess; vice president, Benjamin Baird. Mr. Hess was also elected a delegate to the convention of the Ohio State association of engineers to be held in East Liverpool Tuesday and Wednesday of next week, June 18 and 19. Andrew Crowl was elected alternate.

## IN PITTSBURG TODAY

Board of Trade Committee Conferring With Brush Factory People.

J. W. Gipner, George Y. Travis and John Moore, the committee appointed by the board of trade to confer with the Walker Brush company, are in Pittsburgh today on that business.

A strong effort will be made to have the factory locate in the old Chambers building in the East End. Exceptional inducements are being offered and the East Enders hope that the committee will succeed in persuading the company to locate there.

## CHILD BURNED TO DEATH.

Steubenville, June 11.—Elizabeth Parker, of Richmond, was burned to death yesterday. Her clothing was set on fire by matches with which she had been playing, and was burned off before assistance arrived. The mother was badly burned while extinguishing the flames.

## OFFICERS MADE A BIG ROUNDUP

Richard Walker's Domicile Was Raided and Several Victims Secured.

## MAYOR FINED THEM ALL

Two Fighters Also Before His Honor, Who Relieved Them of a Portion of Their Cash—Mayor Davidson Made an Arrest.

Officers Dawson, Aufderheide and Davidson made a roundup of the domicile of Mr. and Mrs. Richard Walker, in Apple alley, early this morning. Complaints had been filed with the mayor from different residents that midnight carousals had become so frequent at Walker's that the nuisance had become unbearable.

The officers quietly surprised the proprietor and informed him and also his wife that they were under arrest. A search of the home was then made and three others captured. At police headquarters two of the parties registered as William Dine and May Goody, both hailing from Wellsville. Dine put up \$20 for security for his own and his female friend's fine and was not locked up. John Bruce and Mr. and Mrs. Walker were placed in jail.

Before Mayor Davidson this morning Dine paid \$2 and costs, and the same amount for Miss Goody. When Richard Walker was taken before the mayor he made a ludicrous plea of ignorance. He said he was unaware that his home had been scene of disorder as had been alleged, and at first refused to plead guilty to the charge against him. Later, however, he decided to plead guilty, and was assessed a fine of \$25 and costs and committed to the workhouse. He was given until Thursday to make the necessary raise.

Mrs. Walker had a sad story to relate to the mayor. She said she was not responsible for what took place at her house and accused her husband of neglect of duty. She pleaded guilty to loitering in a disorderly house and was fined \$10 and costs. She was also given until Thursday to get the needed cost, and unless the money is then forthcoming will accompany her husband to Canton.

John Bruce said he went to the Walker house to sleep because of sickness at his home. However, he pleaded guilty to loitering where he ought not to have been, and was assessed \$2 and costs. He arranged for the payment of the fine and was released.

William Field and Alvin Wetzel, both potters, who recently came here from Trenton, were arrested this morning by Patrolman Woods in a Market street bar room. The fellows went to the Laughlin pottery soon after work began this morning and made an assault on one of the employees. The foreman, William Griggs, filed affidavits against the fighters and caused their arrest. Each pleaded guilty to fighting and paid fines of \$3 and costs.

Mayor Davidson had a lively encounter yesterday afternoon with Michael Dalton, a bricklayer who hails from Beaver. The fellow while intoxicated went to the home of George Zink on Third street, and deliberately forced an entrance into the parlor, where Mrs. Zink was sitting. She was badly frightened, though Dalton made no effort to harm her. The mayor caught sight of the man and promptly placed him under arrest.

On reaching the door of the city hall the prisoner attempted to get away and struck several times at the mayor, who held on until assistance arrived. Dalton was then hustled into an iron cage on short order. This morning he paid a fine of \$5 and costs. He was released only yesterday morning from the jail, having paid a fine for drunkenness.

W. R. Menough, who was arrested yesterday afternoon for intoxication, was fined \$1 and costs this morning. He had no money and is yet in jail. The man was taken sick and it was necessary to give him whisky to save him from nervous collapse.

## HE SOLD PATENT RIGHTS TO A NUMBER OF FARMERS

The Agent Was Successful, But Purchasers Are Protesting.

## TROUBLE OVER A CHURN

Rights for Territory Were Sold and Notes for \$3,000 Were Secured.

## MARK LODGE, THE EX-SHERIFF

One of Those Who Claim to Have Been Swindled—Cases Are Pending at Lisbon, the Outcome of Which Interests a Large Number.

Salem, June 11.—Cases are now pending in the court at Lisbon, in which a number are fighting to get out of the net in which they are caught. Last fall a man appeared south of this city and sold territorial and patent rights to a number of farmers, covering all the territory between this city, Leetonia and Lisbon. He sold the rights for a patent churn, which was claimed to be a wonder and superior to anything on the market. A number of the farmers and even some men in the towns swallowed the seductive talk of the agent and many of them bought territory.

In most cases the farmers gave notes when they purchased territory. Then men who had been given the right to sell churning, made a canvass of their neighborhood and took a large number of orders. When the churning arrived it was found that the claims made by the agent as to the superiority of the churn was a pure fabrication. The farmers would not use them and many used them for kindling wood.

The agent sharper sold nearby all the notes he secured from the easy farmers to the First National bank of Leetonia. The notes secured by the agent amounted in all to \$3,000. When the bank secured the notes it began pressing the victims for a settlement. Many of them kicked and squirmed, but it was no use, as the law was called into play and they came down with their coin. A number of suits were held in the local courts at Leetonia, and some of the suckers settled without a lawsuit. Ex-Sheriff Mark Lodge was a victim. He settled with the bank for \$150. It is alleged that Kirk Peppel, a well-known farmer south of this city, was caught to the tune of \$400. Peppel's case is now in court at Lisbon. All the cases for the bank are being conducted by Attorney Morgan, of Leetonia. The cases will bring out a lot of interesting testimony, and the outcome is awaited with much interest.

Lisbon, June 11.—The First National bank of Leetonia has sued for judgment against Lycurgus Peppel for \$256. The bank holds two promissory notes made by Peppel in 1900 on which the amount is due.

## TRIED AND SET FREE

Woman Who Shot Her Husband Acquitted By the Jury at Cadiz.

Cadiz, O., June 11.—Mrs. Flora Estelle Smith was declared not guilty of the charge of second degree murder after a trial that attracted large crowds at the sessions of the court. She was the first woman ever on trial for murder in this county.

On the 15th day of April she shot her husband, Daniel H. Smith, through the head with a rifle and he fell across his own doorstep. The defense proved that Smith had left his family after saying he would return and kill them all.

## ON JUNE 26

Will Occur the Wedding of Miss Harriet McAdoo And Harry R. Wyllie, of Toronto.

Announcements have been received by several persons in the city of the wedding on June 26 of Miss Harriet McAdoo and Harry R. Wyllie, of Toronto. The ceremony will be performed at high noon in the Toronto M. P. church.

Following the ceremony a reception will be held at the home of the bride's parents, to which all guests at the wedding will be entertained. The event will be witnessed by a number of East Liverpool people.

## 14-YEAR OLD BOY DROWNED IN SIGHT OF COMPANIONS

Got Beyond His Depth While Bathing at Newell's Landing.

OTHERS PAID NO HEED To His Cries For Help, Thinking He Was Trying to Fool Them.

TRAGIC FATE OF YOUNG O'REILLY

His Father a WellKnown Potter of This City—Dynamite Used in the Search for the Body—How the Accident Occurred.

PATRICK O'REILLY, of Drury lane, died nearly 14 years, was drowned while bathing in the river near Newell's landing, opposite the West End, about 4 o'clock yesterday afternoon. Young O'Reilly, in company with about a dozen other boys, was bathing in the river here when he got beyond his depth, and being unable to swim, sank beneath the waves before assistance could reach him. He appealed to his playmates for help but they thought he was joking, and the unfortunate lad went down for the last time before they realized the seriousness of the situation. Then they procured a skiff and started for the place where he had sunk in a vain attempt to save him.

A number of ladies who had visited the Newell tract and were waiting for the boat to return, reached the landing in time to see the boy go down the last time. They gazed on in horror, but were powerless to aid him.

James Newell was informed of the accident and immediately telephoned the news to police headquarters in this city and to the D. E. McNicol pottery, where it was thought the boy's father, William O'Reilly, was employed.

The only thing on the lad's person when drowned was a string around his neck, to which was attached a "Gospel" and crucifix, and for this reason it was known from the start that it would be difficult to recover the body. Chief Thompson is on the scene today and a searching party has been dragging the river almost all the time since the accident occurred. Dynamite is also being used, but all attempts to recover the body up to noon today have proved fruitless.

The boys went to the river with the intention of taking advantage of the free excursion offered by the Newell Land company and when told that boys were not included in the offer and put off the boat, they slipped back on again and hid behind the pilot house until the boat had pulled out from the landing. They remained on the West Virginia shore when the boat returned and went in bathing just below the landing, much to the dislike of the real estate people who knew nothing of the affair until the accident was reported to them. Mr. Newell then informed the boys that if any of them were found on the boat again they would be arrested and sent to the county jail at New Cumberland. The two men in charge of the boat were also instructed to be more vigilant in keeping the boys off the vessel.

The boy has been working at the Dresden pottery, but quit his job several days ago. He told his mother that he had secured employment at the Cartwright plant and was to start yesterday morning.

When he went home to dinner he told his mother he was working. He left the house and that was the last seen of him alive by his parents.

He was born in Donegal, Ireland, in 1888, and came to this country with his parents in 1893. The family came direct to this city from New York and have resided here since.

He is survived by his father and mother, three sisters, Maggie, Mary Ann, Bridget, and one brother, William.

Up to 3 p. m. the body had not been found.

council of the Knights of Columbus at that place Sunday.

The Wellsville council went on a special train at 8 o'clock on the C. & P. and joined the Steubenville Knights at the Panhandle. The work of conferring the degrees was done by Steubenville and Zanesville councils, and District Deputy F. A. Gavin, of Toronto, who congratulated the councils, stating that the work was never done better. In the afternoon the visitors were banqueted at Odd Fellows' hall, the gastronomical feature being on an elaborate scale.

Among those responding to toasts was P. A. Gavin, who spoke on "Our Country," and threw into the speech all the patriotism and spirit of an old-time war general. Between the Kanawha and the Excursion Boat Leroy, Sunday.

Steubenville, June 11.—The most exciting event on the Ohio around here for a long time was a race Sunday between the Kanawha and the excursion boat Leroy, the Leroy coming first by a neck and making the landing at the wharf while the Kanawha cooled its heels. Some people were so warmed up that they put up good money on the race.

Salem, June 11.—Cases are now pending in the court at Lisbon, in which a number are fighting to get out of the net in which they are caught.

## LAUNDRY WORKERS

HOLD A MEETING AND STATE THEIR GRIEVANCES.

A Statement From the Union Officers in Which Annoyances Are Alleged.

The Laundry Workers' union held a meeting this morning, at the close of which a statement was given out by an officer of the organization, regarding the trouble at the Woodbine. The laundry workers claim that since the union was formed and the scale adopted May 6, they have been subjected to various annoyances, such as being refused the use of the telephone and forbidden even to whisper unless concerning their work. They allege that the two girls laid off on Saturday had been active in the union, and were recently removed from positions they had held for years and given inferior ones. They claim it was evident that the management was trying to get rid of unionists.

The strikers state that a proposition was made to them to go to work yesterday under protest, but they refused and will only go back with the understanding that the other girls go back too.

They say they want union rules observed and if work is slack want those last employed to be the first to be laid off.

Misses Earle, Taylor, Curran, Clark and President McLane, of Trades Council, composed a committee who were appointed this morning to confer with Mr. Hill and report to the union at noon.

The conference was productive of a great deal of good, and after another meeting this afternoon it is thought the trouble will be settled. The terms of the settlement are that every old employee will be reinstated.

William Field and Alvin Wetzel,

both potters, who recently came here from Trenton, were arrested this morning by Patrolman Woods in a Market street bar room.

The fellows went to the Laughlin pottery soon after work began this morning and made an assault on one of the employees.

The foreman, William Griggs, filed affidavits against the fighters and caused their arrest. Each pleaded guilty to fighting and paid fines of \$3 and costs.

Dennis Hickey, foreman of the section gang on the C. & P. railroad, is now short one laborer, Ralph Brown by name. Three other members of the gang are short of some money.

It was payday on the road Saturday, and Brown being off duty on account of illness was compelled to hunt up the foreman in order to get his wages. Brown was a sort of leader for the men and could speak English very fluently. After they received their pay, a great deal of which was in silver, they asked Brown to come to the city and exchange it for paper. They had done this on numerous occasions and Brown always returned, but this time he failed to put in an appearance. He secured about \$47 in all, and it is thought he took the 3:50 train and went to Canada, his former home.

W. R. Menough, who was arrested yesterday afternoon for intoxication, was fined \$1 and costs this morning. He had no money and is yet in jail.

The man was taken sick and it was necessary to give him whisky to save him from nervous collapse.

**EAST END****TENNIS CLUB FORMED**

**EAST END YOUNG PEOPLE HAVE ORGANIZED.**

**They Have Excellent Grounds And Good Players—Several Matches Expected.**

The organization of the latest and perhaps the most important athletic club to be formed in the East End this year was completed last evening when the "East End Tennis Club" made its formal debut. The members of the club held their first meeting last evening, when the name for the organization was chosen and officers elected as follows: President, Thomas Fisher; secretary, E. P. Carman; treasurer, Frank Chambers.

Committees were appointed to purchase supplies, keep the grounds in condition and arrange for games with other clubs.

The club has had two lots at the corner of Mulberry street and Ohio avenue graded and put in first-class condition and fenced with a wire netting 10 feet in height. This is divided into a doublet court and is the only first-class tennis ground within the entire city at the present time.

The club is composed of a number of star players, as well as some amateurs, and has among its membership the most prominent young men of the East End, and as honorary members a number of popular young ladies.

Arrangements are already in progress for contests with clubs from Wellsville, Lisbon, Alliance and Rochester.

Any clubs desiring to arrange for a game should communicate with R. L. E. Chambers, First National bank building, city.

**POLITICAL MATTERS**

The result of the primaries in Logan county in regard to the rule to be followed in the coming senatorial convention resulted in a decisive victory for the two-term theory, which means the unanimous nomination of Senator W. G. Harding, when the senatorial convention meets. John West was a candidate for the nomination for the place if his county declared in favor of one term and out, but he was defeated on that proposition.

"Uncle Abe" Patrick is a candidate for the Democratic nomination for governor. The announcement was formally made at the Tuscarawas county convention Saturday. That same convention adopted a Tom Johnson platform, and it is therefore inferred that Patrick will be backed by Cleveland's mayor and his friends in opposition to Colonel Kilbourne.

The Republicans of Muskingum county will hold their primaries for the nomination of a county ticket Saturday. Under the new legislative apportionment the county will be entitled to but one representative in the next assembly. The leading candidate for the nomination is Ernest Carr, a well known educator.

"There has been no time in our history when conditions would so justify the election of a president to a third term as in the case of McKinley." It is said this remark was made by Congressman Charles H. Grosvenor.

All the Mahoning county candidates for representative have been interviewed and declare themselves unqualified for Foraker as senator.

**Pen Picture of the One In San Francisco's Chinese Quarter.**

In one corner is a miniature wooden warrior, frantically riding a fiery steed toward a joss who stands in his doorway awaiting the rider's coming. A teapot of unique design, filled with fresh tea every day, and a very small cup and saucer are always ready for the warrior. This represents a man killed in battle, whose noble steed, missing his master, refused to eat and so pined away and died. A welcome is assured to them in the better land if the work of man can accomplish it. The horse and rider are to them (the Chinese) what the images of saints are to Christians. In another corner is a tiny bowl of water. The gods occasionally come down and wash. At certain times of the year direct questions are written on slips of paper and put into the hands of one of the greatest josses. These disappear, and then the joss either nods or shakes his head in answer.

On the altar or altars are several brass and copper vessels, in which the worshiper leaves a sandalwood punk burning in such a position that the ashes will fall on the fine sand in the vessel. When one of these is full, it is emptied into an immense bronze vase on the balcony, and this, in turn, is emptied into the ocean. The Chinese take good care of their living and never forget their dead. Once a year, the fourteenth day of the seventh month, they have a solemn ceremony by which they send gold and silver and cloth to the great army of the departed.

A furnace is a necessity in a joss-house. It is lighted on ceremonial days, and paper representing cloth, gold and silver is burned, the ashes of the materials being, in their minds, useful in spirit land. Private families send to their relatives and friends whatever they want by throwing the gold, the silver and the cloth paper, also fruits, into a fire built in the street in front of their houses. The days of worship come on the 1st and 15th of each month.—Modern Culture.

**How an Italian Tenor Was Enabled to Reach High C.**

"There was once an Italian tenor at Covent Garden of the name of Tasca, who, I am sorry to say, sang his own praises better than the score," says Mr. William Parry, the stage director at the Metropolitan Opera House.

"For this and other reasons he was strongly disliked by all the workmen. One day he came to me and said, with great show of mystery:

"Tell me the exact spot."

"I could not for the life of me understand what he wanted."

"You know well enough what I mean," he persisted. "Show me the spot where Tammerlin sang the high C. There is always one spot on the stage that is better than all the others to stand on when you sing. Where is it?"

"I'll show you later," I replied. "But, remember, never a word. It would cost me my place if it should leak out."

"Then I drove a brass tack into one of the stage boards, and he was overjoyed when I solemnly pointed out 'the exact spot,' and so were the workmen at the prospect of a joke at his expense. That night he carefully stood on the tack and sang the high C. Rushing into the wings, he exclaimed: 'Beautiful! Wonderful!' Ever afterward, no matter what part of the stage demanded his presence, he would rush to the tack when the time for the high C came and there deliver it."—Saturday Evening Post.

**Left Her Baby Asleep—Police Could Not Find the Robber.**

A burglar broke in to the house of Charles Benford, colored, last night about midnight. Mrs. Benford was sleeping upstairs with her baby and the stair door was locked. The man entered through a window on the ground floor and attempted to open this door.

The noise awakened Mrs. Benford and she jumped out of the window, leaving her baby in the bed. She ran screaming to her mother's house on Broadway and aroused the neighborhood.

The police were called. They broke into the house and got the baby, but could find no burglar.

**POPULAR TEACHER RESIGNS**

**Miss Ida M. Taylor Required at Home on Account of Father's Illness.**

**Board Meeting.**

At the board of education meeting last night, Miss Ida M. Taylor asked to be allowed to withdraw her application for a position as teacher next year. She says her father is ill and she will be required at home. Miss Taylor for two years has been a very efficient instructor. The board was reluctant to part with her, but her request was granted.

Applications for the office of school librarian were read from Thomas Sheets, Sidney Smith and Frank Workman. A number of bills were presented and ordered paid. Prof. McDonald was instructed to pay all debts incurred at commencement and to pay the remainder of the proceeds to the library fund. The committee on building and repairs was ordered to make all repairs that have been reported, such as broken windows, walks and broken transoms.

The Whitaker Boiler company put in a bid for the making of specifications for new heating apparatus. They will do this for 4 per cent of the cost. If they are given the contract for putting in the apparatus they will not charge anything for specifications. They will agree to use all the old apparatus that can be utilized and will take the rest in part payment for the work.

Dr. Park stated that, according to the motion passed at last meeting, no homo men could be considered in the deal. The motion was reconsidered and amended so as to allow any one to bid on the work. The board then went into executive session.

In the executive session of the board the following teachers and officers were chosen:

Superintendent of schools, Prof. J. T. McDonald, three years \$1,800 per year; principal of high school, Miss Ruby E. C. Mason, Toronto, Can., \$111.11 per month; assistants, Pearl Gillean, Utica, N. Y., \$75; Blanch Butler, \$65; Mrs. C. S. Forner, \$60; M. E. Phillips, \$50; Edith Kech, \$50; Pearl Holtz, Bridgeport, \$50; Maude McGregor, \$45; Mabel Boyd, \$45; Maude Sheppard, \$45; Mary Boyd, \$45; Nannie Stevenson, \$45; Stella Keys, \$45; Rena M. Turner, \$50; West and East End buildings—Jennie Dickson, \$50; Lettie Brown, \$45; Nellie Joseph, \$45; Mattie Andrews, \$50; Mary Stokes, \$45; Anna Davidson, \$40; Music instruction—Florence Everson, \$50; supernumeraries, Goldie Murdock, Mary McDonald; janitors, William Culp, \$80; Daniel Tarr, \$40; John Wilcoxen, \$45; librarian, Frank E. Workman, \$30.

**The Professor's Wooing.**

The experience known as "popping the question" is the bugbear of every man, however confident of his charms or fluent of speech. Many original ways of asking young women to marry them have been resorted to by bashful men, but perhaps the most brilliant suggestion came to a learned German professor, who, having remained a bachelor till middle life, at last tumbled head over ears in love with a little flaxen haired maiden many years his junior.

One day, after vainly endeavoring to screw his courage to the sticking point, the learned man came upon his Gretchen as she sat alone, darning a stocking, with a huge pile of the family hosiery on the table. The professor aimlessly talked on general topics, wondering how he could lead up to the subject nearest his heart, when all at once a happy thought came to him.

Leaning forward, he put his big hand on the little fist doubled up inside the stocking and said hopefully:

"You darn very beautifully, fraulein. Would you like to darn my stockings only?"

Fortunately the fraulein was not so simple as she appeared. She grasped the significance of the question immediately and lost no time in answering. "Yes."—Youth's Companion.

Dr. Rixey So Stated Regarding Mrs. McKinley---Gaining Steadily.

**SHE SAT UP SEVERAL TIMES.**

Cabinet Members Called to the White House—Said It Had to Do With the Improved Condition of the President's Wife.

Washington, June 11.—Dr. Rixey, when he left the white house about 10:15 last night said:

"Everything is encouraging. Mrs. McKinley is doing very nicely. She is gaining steadily. She sat up in a rolling chair several times today, aggregating probably an hour. We are very much encouraged by the steady improvement."

Surgeon General Sternberg made his usual visit to the white house, and on leaving said that Mrs. McKinley continued to improve and is doing very well.

Washington, June 11.—A cabinet meeting was called suddenly by messages sent the various cabinet members from the white house. The president and Secretary Long had been out driving, the secretary being especially sent for by the president to join him in the drive. When the president returned he found Secretary Hay awaiting him and the two spent about half an hour together, the secretary leaving later on a night train for Buffalo. It was immediately after this call that the cabinet were asked to assemble and they arrived within a few minutes of each other, about 8 o'clock, none of them being advised in advance of the object. Secretary Long brought his young son; Secretaries Long, Gage, Hitchcock and Wilson, Attorney General Knox and Postmaster General Smith were those present. Secretary Root is in Buffalo, while Secretary Hay had left for the same place.

The cabinet immediately repaired to the cabinet room, where they remained less than an hour. They took occasion to express their gratification at the improvement in Mrs. McKinley's condition, and also discussed another subject, which none of them would discuss, each member saying that it was a personal matter, and some of them giving out the negative information that the meeting had no relation to Cuba, China, the Filipinos, the Porto Ricans, the supreme court decisions, the Boer war or any important public question.

The personal injunction on each member to say nothing about the matter prevented any information on the subject being had.

Several cabinet officers said that their calls had to do with Mrs. McKinley's continued improvement.

Some announcement may be made later about the matter, which was either a social or personal nature, and chiefly concerned those present.

The president and Mrs. McKinley received from Mr. and Mrs. Thomas F. Walsh of Colorado, the exquisite gifts that were to have been souvenirs of the presidential visit to Colorado, had Mrs. McKinley's illness not cut short their western visit. Monday last, according to the official program marked out for the trip, the presidential party was to have breakfasted with Mr. and Mrs. Walsh at Glenwood Springs.

**AGAINST AMERICAN ENGINES.**

French Railroad Official Said They Used More Coal Than French Locomotives.

Paris, June 11.—The assistant engineer of the Orleans railway, when questioned regarding the report that the company was dissatisfied with the American locomotives purchased last year, said:

"All thirty have been running since November, and there is no idea of withdrawing them. But it is true that they burn more coal and that it is slightly more expensive to maintain them than other locomotives doing the same work."

They were purchased because they were needed in a hurry. For this reason the company does not regret the purchase, but the experiment is not encouraging, and the company does not contemplate further purchases except in similar circumstances, as the French locomotives are equally satisfactory and more economical.

The company experimented with American coal last year, when quite a quantity was purchased under favorable conditions. It proved satisfactory. The company is closely watching this question and is prepared to make further purchases of American coal whenever prices will allow."

They are Lillain G. and Herbert S. Coleman, children of Benjamin and Zilphah Coleman, and their combined weight is 267½ pounds. The former, a nine-year-old girl, weighs 138½ pounds, while the eight-year-old boy, her brother, Mr. Coleman, who is a miner, has had some tempting offers to take his children on the road and exhibit them, all of which he has flatly refused.

For the same reason they refused to allow the church bell to be tolled during the services at his home next door.

These acts may cause a break in the congregation, as there is much indignation expressed over the action. It is said Stall was behind in his pew rent and they wanted others to take warning.

**RUBBER HISTORY.****Man That Came With Columbus Saw Haitians Playing Ball.**

"The world was a long time learning the uses and value of rubber," says H. E. Armstrong in Ainslee's. "For two centuries after the Spaniards saw the gum in the hands of natives of the new world it was little more than a curiosity. Old Herrea, who went with Columbus on his second voyage, made a note of an elastic ball which was molded from the gum of a tree. At their games the nude Haitians made it bound high in the air. The Aztecs were familiar with the gum and called it ule, and from them the Spaniards learned to smear it on their coats to keep out the wet. They had crossed the seas for gold and never dreamed of a time when the sticky milk the uncouth Indians drew from strange trees would be worth more than the treasure of the hills.

"Jose, king of Portugal, in 1555, comes down to us as the wearer of a pair of boots sent out to Para to be covered with a waterproof gum. Yet 300 years were to elapse before a Connecticut Yankee should make a pair of boots of rubber which would not decompose. Dr. Priestly, author of a work on 'Perspective,' now forgotten, recorded that caoutchouc (pronounced kachoo) was useful in small cubes for rubbing out pencil marks; hence the name rubber. The India linked with it refers to the savages who gathered it in the Amazon wilderness. Dr. Priestly's cubes were half an inch long and sold for 3 shillings, or 75 cents, apiece—a stiff price, for the finest rubber today is \$1 a pound. Its price for ten years has ranged from 62 cents to \$1.09.

"The conversion of the gum to useful purposes made but slow headway. The first waterproof cloth in 1797 was the work of an Englishman. It was tentative, and, of course, it would not stand heat. In 1823 Charles Mackintosh of Glasgow discovered naphtha and, dissolving rubber in it, produced a varnish which, when spread on cloth, made it really impervious to water. Most of the rubber used in the world still comes from equatorial South America, and the forests where the Indians gathered it are as dense today and almost as little known to white men as in the time of Cortes."

A Mule as a Life Saver.

The mine mule knows a thing or two about as well as does the army mule. In one of the mines in the Pittsburgh district the ever patient mule proved himself possessed of an almost human sense of coming danger. One morning when the full shift was at work there occurred an unusual thing. The air currents had seemed defective, and there was a restless feeling among the miners, something like the uneasiness of live stock before a storm. A few days previous a chamber had been closed on account of gas, and the men were instinctively thinking of what that might mean. Suddenly there was a clatter of hoofs, and a mule appeared. Its long ears were quivering, and its intelligent eyes were full of terror.

It gave a shrill bray and then was gone down the entry, broken traces flying after it. The men looked at one another, and then the feverishness of the air moved them with one impulse. Dropping picks, they fled precipitately, making a headlong dash through the labyrinth for the open air. With scared faces other miners joined them, and

## ROAD IMPROVEMENT.

Speaking of the agitation in favor of good roads, a Washington correspondent says: "Among other ridiculous things the Good Roads Department of the national government does is to issue literature to farmers to convince them of the necessity of good roads. After a time one may expect the Interstate Commerce commission to issue circulars to the business men of the country asking them to become interested in the necessity of railroads."

Not quite so fast. It may be that farmers who live on improved highways do not need to be convinced of the necessity of using macadam and gravel and common sense when they have a road to build. But let the correspondent become as familiar with the mud roads of Eastern Ohio as he probably is with the asphalt-paved streets of Washington; let him attempt a few buggy rides from East Liverpool to Lisbon, for instance, in the mire of April or October, and we fancy he will become convinced that the agricultural department literature which preaches the gospel of road improvement ought not to be altogether wasted if scattered liberally along that route. And all over Columbian county and a score of other counties there is abundant field for similar missionary work.

The simple fact is that farmers who have never had them do not appreciate the value of good roads. They may think they do, but they do not, or they would not sit idly in the mud and wait for someone to build roads for them. They would go ahead and build them themselves.

Good roads cost a great deal of money, but they are not one-tenth as expensive as bad ones. If a township with a small sum to spend on the highways would go to work and put that money on one small stretch of road, and keep up that work year after year, it would not be long until all its roads were in a fair condition. But there are too many people to be suited to render this practicable, and so the money and effort is spread out over so much ground that nobody is benefited.

If a man wants to build a house, he consults someone familiar with architecture and building material and has his plans matured before he sets to work. If he wants to build a road he takes a shovel and digs in one place while his hired man digs in another. The result is the mud road with which Ohio has been familiar for the past hundred years. We cannot have good roads as long as individuals and townships and counties are content to have their highways constructed after that fashion.

We believe there is need to educate the people on the question—to educate them up to the point where they would as soon plow with a wooden moldboard, as their grandfathers did, as to dig in the mud, in the old-fashioned way, and call the track so marked out a road.

## THE FOOLISHNESS OF FOOLS.

It is an old and familiar adage that the fool and his money are soon parted. But money is not the only thing that the fool squanders recklessly. Frequently he parts with his life, in an effort to show how smart he is. Sometimes he leaps from the Brooklyn bridge and sometimes he goes over Niagara Falls. Rarely he escapes to repeat the exploit. In the winter time he ventures upon thin ice or tries to see how near he can skate to the danger sign without making an item for the newspaper. In the summer he gets in a boat and rocks it. Then the fool becomes dangerous to others beside himself and cannot be suppressed too quickly. According to a dispatch

from Akron, there is one less fool in Summit county than there was last week. The loss would probably not be greatly felt or extensively lamented but for the fact that the fool's prank caused the death of another as well as that of himself.

This particular idiot was in a boat on Summit lake with two companions. To amuse himself and terrify his friends he indulged in the highly humorous pastime of rocking the boat. He rocked it a little too successfully, and all three went into the water. One man escaped after clinging to the overturned boat for two hours. The funerals of the humorist and the man who went down with him will occur as soon as the coroner gets through with their cases. Grown men who are addicted to the habit of boat-rocking ought to be put in a straight jacket until they have reformed, or else set adrift, without oars, in a boat they could rock until fully satisfied with that form of sport.

Andrew Carnegie is amusing himself by making gifts so large that the recipients don't know what to do with them. He need not go abroad for that sort of work. There are millions of people in the United States who are willing he should make them victims of practical jokes of that sort.

The report that the Boer war is to be ended through the intervention of European nations is no sooner made than it is contradicted. European nations mostly have their wisdom teeth cut and know better than to interfere in a family quarrel to which John Bull is a party.

The Syracuse woman aged 100 who lacks nothing save a bicycle to make her perfectly happy is more fortunate than most mortals.

## OBITUARY.

### Mrs. Mary A. Stewart.

Word from New Cumberland announces the death of Mrs. Mary A. Stewart, Saturday. Several years ago Mrs. Stewart was stricken with paralysis and has since been an invalid. Some time ago she had a second stroke and since has been entirely helpless. Mrs. Stewart was 72 years of age and was the widow of the late Captain Stewart, who was for many years captain on the Little Beaver creek. The other kilo hands look for an interesting time when the West Virginian returns.

Fannie Ann, the 8-year-old daughter of Mr. and Mrs. William Ritcher, died at their home in the East End yesterday evening after an illness of several weeks with pneumonia. The funeral will take place tomorrow afternoon and Rev. J. H. Mason will officiate. Interment will be made at the Spring Grove cemetery.

### Mrs. Anna Hamilton.

Lisbon, June 11.—(Special)—Mrs. Anna Hamilton, of this city, died last evening of bone cancer. She was 66 years old and had been engaged in the dry goods business here for 22 years. She was the wife of M. N. Hamilton, a prominent druggist, who survives her with four sons.

## TARR WANTS HIS MONEY

Paid a Bill for Infirmary Directors And Asks County to Reimburse Him.

Lisbon, June 11.—(Special)—County Infirmary Director Wm. A. Tarr filed application in court today for a writ of mandamus against County Auditor J. F. Adams. Tarr wants a warrant on the treasurer for \$20, and Auditor Adams has refused to give it. In February the infirmary directors employed Miss Anna Runyon to nurse a Mrs. Gamble, a county charge, who was ill. While so employed Miss Runyon boarded at the Hostetter house at \$4 a week. Tarr says he gave the landlord a voucher for the \$20 for her board and when the auditor refused to order it, he paid the amount himself. He now wants the county to reimburse him. Tarr says the refusal of Auditor Adams to honor vouchers from the board of directors is a matter of annoyance and embarrassment to them and he wants the court to determine their rights and the law on the subject, for the board's guidance in the future.

## GLEANINGS OF A DAY

In and About

## THE LOCAL POTTERIES

Concerning the Coshocton pottery project, in which East Liverpool men who has been the foreman of the clay shop, and who goes to Canonsburg, Pa., to take charge of a more remunerative position, with a valuable Masonic badge and a fine silk umbrella. Samuel Shenton, the oldest employee of the pottery, made the presentation speech.

"The East Liverpool potters who want to locate a plant in this city have been given a flat proposition and will answer it in a few days. If they decide to accept what Coshocton offers, and the indications point that way, work on the pottery will be commenced as soon as material and men can be procured. The importance of closing the deal at once has been impressed on the company's mind and the stockholders realize that if they want to come to Coshocton they must act promptly."

"Should the pottery project fail there are others to take its place, and the best one will secure the bonus. The board is determined to place the money at hand in some industry, and will act promptly."

The latest applicant for a position at the National plant this morning was Otto Hill, of Jackson county, W. Va. He had some experience working on a farm, he said, and wanted some of the kiln hands to give him a job. Al Creider was the only man in the shop who owned a farm, and as it was being run by him and Ed Ryan they held a conference and decided to employ the young man. He was given a job with the understanding that he was to work from 3 o'clock in the morning until 9 at night, and the sturdy mountaineer accepted the offer with the stoical philosophy characteristic of the moonshiner, and at the direction of his bosses started for the farm on Little Beaver creek. The other kilo hands look for an interesting time when the West Virginian returns.

Local Union No. 4, pressers, held a long and busy session last night and were not through with the business until after 11 o'clock.

The semi-annual election of officers was held, resulting as follows: President, Homer Owen; vice president, Alex Thompson; recording secretary, Ralph Wood; 1 per cent assessment treasurer, David Orr; treasurer, Thomas Osburn; inspector, Harry Conn.

It is an old and familiar adage that the fool and his money are soon parted. But money is not the only thing that the fool squanders recklessly. Frequently he parts with his life, in an effort to show how smart he is. Sometimes he leaps from the Brooklyn bridge and sometimes he goes over Niagara Falls. Rarely he escapes to repeat the exploit. In the winter time he ventures upon thin ice or tries to see how near he can skate to the danger sign without making an item for the newspaper. In the summer he gets in a boat and rocks it. Then the fool becomes dangerous to others beside himself and cannot be suppressed too quickly. According to a dispatch

from Akron, there is one less fool in Summit county than there was last week. The loss would probably not be greatly felt or extensively lamented but for the fact that the fool's prank caused the death of another as well as that of himself.

This particular idiot was in a boat on Summit lake with two companions. To amuse himself and terrify his friends he indulged in the highly humorous pastime of rocking the boat. He rocked it a little too successfully, and all three went into the water. One man escaped after clinging to the overturned boat for two hours. The funerals of the humorist and the man who went down with him will occur as soon as the coroner gets through with their cases. Grown men who are addicted to the habit of boat-rocking ought to be put in a straight jacket until they have reformed, or else set adrift, without oars, in a boat they could rock until fully satisfied with that form of sport.

Andrew Carnegie is amusing himself by making gifts so large that the recipients don't know what to do with them. He need not go abroad for that sort of work. There are millions of people in the United States who are willing he should make them victims of practical jokes of that sort.

The report that the Boer war is to be ended through the intervention of European nations is no sooner made than it is contradicted. European nations mostly have their wisdom teeth cut and know better than to interfere in a family quarrel to which John Bull is a party.

The Syracuse woman aged 100 who lacks nothing save a bicycle to make her perfectly happy is more fortunate than most mortals.

## OBITUARY.

## Mrs. Mary A. Stewart.

Word from New Cumberland announces the death of Mrs. Mary A. Stewart, Saturday. Several years ago Mrs. Stewart was stricken with paralysis and has since been an invalid. Some time ago she had a second stroke and since has been entirely helpless. Mrs. Stewart was 72 years of age and was the widow of the late Captain Stewart, who was for many years captain on the Ohio river.

## Fannie A. Ritter.

Fannie Ann, the 8-year-old daughter of Mr. and Mrs. William Ritter, died at their home in the East End yesterday evening after an illness of several weeks with pneumonia. The funeral will take place tomorrow afternoon and Rev. J. H. Mason will officiate. Interment will be made at the Spring Grove cemetery.

## Mrs. Anna Hamilton.

Lisbon, June 11.—(Special)—Mrs. Anna Hamilton, of this city, died last evening of bone cancer. She was 66 years old and had been engaged in the dry goods business here for 22 years. She was the wife of M. N. Hamilton, a prominent druggist, who survives her with four sons.

## TARR WANTS HIS MONEY

Paid a Bill for Infirmary Directors And Asks County to Reimburse Him.

Lisbon, June 11.—(Special)—County Infirmary Director Wm. A. Tarr filed application in court today for a writ of mandamus against County Auditor J. F. Adams. Tarr wants a warrant on the treasurer for \$20, and Auditor Adams has refused to give it. In February the infirmary directors employed Miss Anna Runyon to nurse a Mrs. Gamble, a county charge, who was ill. While so employed Miss Runyon boarded at the Hostetter house at \$1 a week. Tarr says he gave the landlord a voucher for the \$20 for her board and when the auditor refused to order it, he paid the amount himself. He now wants the county to reimburse him. Tarr says the refusal of Auditor Adams to honor vouchers from the board of directors is a matter of annoyance and embarrassment to them and he wants the court to determine their rights and the law on the subject, for the board's guidance in the future.

## GLEANINGS OF A DAY

In and About

## THE LOCAL POTTERIES

Concerning the Coshocton pottery project, in which East Liverpool men are interested, the Coshocton Age says:

"The East Liverpool potters who want to locate a plant in this city have been given a flat proposition and will answer it in a few days. If they decide to accept what Coshocton offers, and the indications point that way, work on the pottery will be commenced as soon as material and men can be procured. The importance of closing the deal at once has been impressed on the company's mind and the stockholders realize that if they want to come to Coshocton they must act promptly."

"Should the pottery project fail there are others to take its place, and the best one will secure the bonus. The board is determined to place the money at hand in some industry, and will act promptly."

The latest applicant for a position at the National plant this morning was Otto Hill, of Jackson county, W. Va. He had some experience working on a farm, he said, and wanted some of the kiln hands to give him a job. Al Creider was the only man in the shop who owned a farm, and as it was being run by him and Ed Ryan they held a conference and decided to employ the young man. He was given a job with the understanding that he was to work from 3 o'clock in the morning until 9 at night, and the sturdy mountaineer accepted the offer with the stoical philosophy characteristic of the moonshiner, and at the direction of his bosses started for the farm on Little Beaver creek. The other kiln hands look for an interesting time when the West Virginian returns.

Local Union No. 4, pressers, held a long and busy session last night and were not through with the business until after 11 o'clock.

The semi-annual election of officers was held, resulting as follows: President, Homer Owen; vice president, Alex Thompson; recording secretary, Ralph Wood; 1 per cent assessment treasurer, David Orr; treasurer, Thomas Osburn; inspector, Harry Conn.

Nothing was done toward the completing of arrangements for the baseball game to be played by this local with No. 12 on July 8, but it is thought the committee will get to work by next week.

**SOUTH SIDE  
SMALLPOX AT MOSCOW**

THREE CASES OF THE DISEASE  
ARE REPORTED THERE.

Alarm in Chester on the Increase But  
No Action Yet Taken.

Three new cases of smallpox are reported at Moscow, just below Wellsville on the West Virginia side. John D. Stuart is one of the victims and two other members of his family are down with the disease according to the report of a dairyman who came from Moscow this morning. Attorney G. D. Ingram, who returned from New Cumberland this morning, reports that there are three cases only in that town.

The apprehension felt at Chester has increased with the report that the disease has broken out at Moscow, and much talking is being done, but no action has been taken to protect the town against the disease.

**A STREET RAILWAY**

To the New Town of Newell Now  
Seeks a Charter—Phenomenal Lot Sale.

The most surprising activity in real estate circles in many months is the lot sale at Newell. In three days' time more than 140 lots have been sold. Many of the purchasers are among the best business men in East Liverpool. Every trip of the boat carries people who invariably buy when they get on the ground. A better site for a town could not be found anywhere. Negotiations for several factories are under way on the 100 acres reserved for manufacturing sites.

Representatives of the company were before the county court at New Cumberland yesterday endeavoring to secure a franchise for an electric railway, which it is thought, will be granted, as the objections held when the former application was made has been removed.

Large numbers of people are taking advantage of the free transportation offered by boat from the foot of Market street to Newell's landing to inspect the beauties of the Newell tract.

**THE NEW GAS PLANT**

Work of Construction Begun on a  
Building for Experiments.

Work on the artificial gas plant was begun this morning. The erection of the plant is under the direction of H. H. Hamerton, who is a stockholder in a company of East Liverpool and Chester capitalists who are building the plant. Among these are Will Reed, John N. Taylor, Howard Piper, John Gardner and D. T. McBane.

The plant will be 40x80 feet and will be used for experimenting purposes only, it being the purpose of the company to demonstrate that gas can be manufactured from bituminous coal.

The building will be similar in construction to the one in the East End, and is located on the low ground next to the railroad just below the First street bridge.

A Little Child Falls Out But Escapes  
Any Serious Injuries.

Noble, the 16-month-old child of Geo. A. Arner narrowly escaped serious injury in a runaway this morning. Mr. Arner had left the child on the seat and was removing some groceries from the rear of the wagon when the horse became scared and lunged forward. The seat and child were both thrown off the wagon, but the little one was uninjured.

## CHAPTER IV.—Continued.

I walked out into the black bank of the night, but could neither see nor find anything. I made a complete circuit around the oasis of light from the fire, and all was peaceful and quiet. I returned to the log, ready to scold Old Put for giving a false alarm, but reflected, reflecting that he might be nervous and irritable owing to his lack of food.

"What did you find?" asked the girl, looking at me with bright eyes.

"Nothing."

"I thought you wouldn't. It was a wildcat or maybe a harmless little squirrel."

"Aren't you afraid of the wild animals?"

"Not with such a brave rebel as you near me."

I opened my eyes a little wider and looked at her. It was the first time that she had complimented me even in that half-handed way, and I was surprised.

"I thought you did not allow me the possession of any desirable quality whatever," I said.

"You are improving," she replied. "Perhaps it is due to my society. I may yet make you a loyal follower of King George and save you from the hangman."

I had my doubts about the "loyalty," which is a term devised for the protection of sovereigns in their crimes, but I said nothing just then. She, too, said nothing more. The heap of coals grew and glowed in the depths with deep crimson and scarlets, throwing out a generous heat and wooing me to sleep. Despite my sense of caution and the efforts of my will, my eyelids drooped. The castle in the coals became more indistinct and wavered as if they were made of red mist.

Old Put whinnied again and raised his head high in the air like one who listens. I was wide awake in an instant and on my feet again.

"Put," I said, "if I find that you have given a false alarm a second time you shall have nothing to eat in the morning."

"I wouldn't bother about it," said the girl. "It's only a squirrel or a rabbit. Any horse would notice the passing of such an animal. Their senses are keener than ours."

She was growing very considerate of me!

But I searched the wood again, and finding nothing returned to my old and comfortable place. Old Put was restless and shuffled about; but, angry at his idle alarms, I commanded him roughly to keep quiet, and he obeyed.

The girl was humming softly to herself as if she were thinking of her far-away English home. I supposed she was lonely and homesick, and again some pity for her crept into my heart.

"Are you singing of your sweetheart?" I asked, meaning to cheer her up.

"I have none," she replied.

"Not now perhaps, but you will have some day."

"That is a different matter."

"What kind of a sweetheart would you choose?"

"A soldier, a gallant English soldier, one loyal to his king through all."

She continued to hum her little song, whatever it was. Something stirred in the wood, and Old Put, despite my previous command, whinnied and stamped his feet.

"O'erfound that beast, whatever it may be!" I said. "It must be a wildcat attracted by the light of our fire."

"Let the wildcat go," she said. "Listen and I will sing you a song that will tell you what my future betrothed husband shall be. It's an old Scotch song of devotion and loyalty, but we English sing it, too, and like it as well as the Scotch. 'Dumbarton's Drums' we call it."

"Sing," I said.

Then she sang:

"Dumbarton's drums beat bonnie O,  
When they mind me of my dear Johnnie O.  
How happy am I  
When my soldier is by,  
When he kisses and blesses his Annie O.  
Tis a soldier alone can delight me O,  
For his graceful looks do invite me O.  
While guarded in his arms  
I'll fear no war's alarms.

Neither danger nor death shall e'er frighten me O!

"My love is a handsome laddie O,  
Gentle, but ne'er foppish nor gaudy O!  
Though commissions are dear,  
Yet I'll buy him one this year,  
For he'll serve no longer a cadet O!  
A soldier has honor and bravery O,  
Unacquainted with rogues and their knavery O!

He minds no other thing  
But the ladies or the king,  
For every other care is but slavery O!

"Then I'll be the captain's lady O!  
Farewell, all my friends and my daddy O!  
I'll wait no more at home,  
But I'll follow with the drum,  
And when'er that beats I'll be ready O!  
Dumbarton's drums sound bonnie O!  
They are sprightly like my dear Johnnie O!  
How happy shall I be  
When on my soldier's knee,  
And he kisses and blesses his Annie O!"

They bound me securely and set me with my back to the log and my face to the fire, much in the position that I had occupied while the girl was singing. Confound her for lulling away my caution and suspicion in such a manner! I had no doubt now that she had seen the

red uniforms of the British when first I went into the wood to search for the cause of the noise. I was a fool to let my distrust of her decrease for a moment.

"That was a complete job, Miss Howard," said the leader, "well done by everybody, and your part is the best done of all."

"You have rescued me from the hands of a rebel, Captain Crowder," she replied, "and I am back with my own people, for both of which I thank you."

I thought it was time for me to say something.

"It is true you have trapped me between you, Captain Crowder, for so I hear the lady call you," I said, "but I wouldn't exult, because the next chance might be mine, and it would hurt your feelings for me to pay you back."

"I don't know about any next chance for you," he said, "because here in the south we generally hang rebels."

I did not reply to his threat, thinking that I had said enough, and turned my head away. My glance fell now upon Old Put. His eyes were full of reproach to me. The I told you so expression was there, and the I am sorry for you and myself expression was mingled with it.

"I will never lose faith in you again, best of all comrades!" I signaled back.

Captain Crowder, having seized me, also seized my camp, evidently with the intention of spending the night there, and he posted one sentinel, while the others sat around the fire, making themselves comfortable. The girl occupied her old seat on the tree trunk, leaning against the projecting bough.

"Do you know where my father is, Captain Crowder?" she asked.

"With Tarleton," he replied.

"And where is Tarleton?"

"Hot on the chase of the rebel major and his men."

"Can we overtake Tarleton by noon tomorrow?"

"Undoubtedly, for he has to go rather slowly, not knowing just where Morgan is. He doesn't want to run past the game. Morgan's hard to catch, but when Tarleton once comes up with him there'll be an end to one rebel army."

I listened to this conversation with the closest attention and continued to listen while he described Tarleton's movements, force and equipment. If I could escape him and the hangman's rope with which he had threatened me, this information would be of great value to us. I was glad that, for the sake of precaution, I had torn up the girl's letters and other written facts about us when I captured her, for now she could rely only upon speech. I waited for her to tell Crowder about us, but she said nothing upon that point, and I reflected that her reticence was natural, as she would want to give her information herself to Tarleton, and thus secure all the credit instead of letting the guerrilla, Crowder, claim at least half of it.

When she finished, I raised my hands and clapped them together.

"Well done!" I said. "Well done!"

"Done well enough for us," said some one, and strong hands reached over the log and grasped me by the wrists. My languor and my sleepiness were gone in an instant, and I made a powerful effort to wrench myself loose, but I had been taken too suddenly.

Three or four men flung themselves upon me, and I was crushed under a great weight, while the firm grip was still on my wrists. I managed to deal somebody a heavy kick and heard a grunt of pain, but in a few seconds I was overpowered and, like a wise man, ceased to struggle further.

Singularly enough, one of my early thoughts in that moment was of relief that Old Put should prove not to be a false prophet, having enjoyed such a good character in that respect so long.

I had been a fool not to take his warning more seriously. Then I wondered why the girl did not cry out at the sight of the struggling men and the sound of earths and blows, a violent medley usually very terrifying to women. I caught one glimpse of her, and she was sitting on the log, her back against the up thrust bough, leaning upon it as lazily as if she were in a rocking chair in a parlor. The firelight still played over her face and eyes, but the soft and tender expression which had pleased me was gone. Instead the look that she turned upon me was a mixture of dislike, malice and triumph.

After meeting such a glance it was a relief to me to look another way and see who had captured me.

**CHAPTER V.**

**A CHANGE OF FRONT.**

"Truss him up good," said one. "These rebels are not to be trusted even when they are tied."

I gave careful notice to the man who spoke, evidently the leader of the party. He was of middle size, middle age and truculent features. His most noticeable characteristic was his drooping eyelids, which would induce the casual observer to think he was fast asleep, though in reality he was wide awake. He was dressed in the uniform of a captain in the British army. I set him down as a partisan chief on a small scale. He had five comrades, cast in the same mold as himself, all dressed in British soldiers' uniforms and rather wild of look.

They bound me securely and set me with my back to the log and my face to the fire, much in the position that I had occupied while the girl was singing. Confound her for lulling away my caution and suspicion in such a manner! I had no doubt now that she had seen the

Then she sang:

"Dumbarton's drums beat bonnie O,  
When they mind me of my dear Johnnie O!  
How happy am I  
When my soldier is by,  
While he kisses and blesses his Annie O!  
A soldier alone can delight me O,  
For his graceful looks do invite me O,  
While guarded in his arms  
I'll fear no war's alarms.

Neither danger nor death shall e'er frighten me O!

"My love is a handsome laddie O,  
Gentle, but ne'er foppish nor gaudy O!  
Though commissions are dear,  
Yet I'll buy him one this year,  
For he'll serve no longer a cadie O!  
A soldier has honor and bravery O,  
Unacquainted with rogues and their knavery O!

He minds no other thing  
But the ladies or the king,  
For every other care is but slavery O!

"Then I'll be the captain's lady O!  
Farewell, all my friends and my daddy O!  
I'll wait no more at home,  
But I'll bring with the drum,  
And whence'er that beats I'll be ready O!  
Dumbarton's drums sound bonnie O!  
They are sprightly like my dear Johnnie O!  
How happy shall I be  
When on my soldier's knee,  
And he kisses and blesses his Annie O!"

Her voice was deep and true, and the old war ballad was music in my ears. As the melody rose and fell in the lonely night my eyes drooped again and my brain became dim with advancing slumbers like a child soothed to sleep by the song of his mother. I was as tired as a dog. I had ridden long and far and had worked much, and every nerve and muscle in me cried aloud for rest, but I roused myself as she finished and the last note of her song died in the darkness.

"That is a proper military song," I said, "and nobly sung, but I object to the sentiments of your hero. He minds no other thing but the ladies or the king. The ladies are all right, but no king! Leave the king out!"

Old Put was stamping his feet again.

"That's right, Put," I said. "Applaud the song, for it was well sung, though you and I, who are good Americans, don't altogether like the sentiments. That, I take it, is an old song of loyalty to the Stuarts. It is a singular thing to me how wholesome minded English people can invest the Stuarts, whom they kicked out of their country, with so much romance and charm when all history shows they were an utterly debased lot, and nobody knows it better than the English themselves."

The sentiments of the song, king and all, are perfectly correct, and I'll sing that verse to you again."

She looked at me with a look half of defiance, half a smile, and sang:

"My love is a handsome laddie O,  
Gentle, but ne'er foppish nor gaudy O!  
Though commissions are dear,  
Yet I'll buy him one this year,  
For he'll serve no longer a cadie O!  
A soldier has honor and bravery O,  
Unacquainted with rogues and their knavery O!

He minds no other thing  
But the ladies or the king,  
For every other care is but slavery O!"

She sang it still more softly and gently than before, and, though my eyelids drooped again, I turned my eyes from the bed of coals to her face. The firelight played ruddily over her eyes and cheeks, and the expression there seemed tender and faraway, as if her thoughts had gone from this dark night and the war torn fields of South Carolina to the green English meadows and peaceful sunshine.

When she finished, I raised my hands and clapped them together.

"Well done!" I said. "Well done!"

"Undoubtedly, for he has to go rather slowly, not knowing just where Morgan is. He doesn't want to run past the game. Morgan's hard to catch, but when Tarleton once comes up with him there'll be an end to one rebel army."

I listened to this conversation with the closest attention and continued to listen while he described Tarleton's movements, force and equipment. If I could escape him and the hangman's rope with which he had threatened me, this information would be of great value to us. I was glad that, for the sake of precaution, I had torn up the girl's letters and other written facts about us when I captured her, for now she could rely only upon speech. I waited for her to tell Crowder about us, but she said nothing upon that point, and I reflected that her reticence was natural, as she would want to give her information herself to Tarleton, and thus secure all the credit instead of letting the guerrilla, Crowder, claim at least half of it.

Two of the men disappeared in the wood and returned in a few moments, leading the horses of the band, which they tethered to the trees near by. I guessed that they had seen the light of our fire at a distance and leaving their horses there had crept upon me.

"You will excuse us, Miss Howard, while we eat and drink little," said Crowder. "We've ridden far today, and we're tired and hungry."

Their appearance was sufficient indication that they needed food and rest, for the grime of travel was thick upon them. They rummaged their haversacks and saddlebags and produced bread and meat, which they began to eat greedily. They were absorbed like wild animals in their repast and paid no attention to anything else.

The girl rose and walked over to me. Reaching down, she seized the end of my silk handkerchief, which was projecting from my pocket, and jerked it forth. She threw it into the fire and watched it burn, the red heat gripping the delicate silk and converting it in a moment to ashes. Then she turned upon me a face of flame.

"You dared to bind me," she said— "you a rebel and I an English woman, the daughter of a loyal English officer! You dared to insult me so!"

"And I presume that is the reason you burn the handkerchief with which I bound you," I said.

"Yes."

"Now that you have begun the job of burning I suppose you would like to burn me, too, as I am the man who tied the handkerchief, and I did so because you deserved it."

She was silent, but her cheeks were as red as ever.

"I congratulate you upon your rescue, your rescuers, your company," I said.

"They are loyal British soldiers."

"They wear the British uniform."

"Any ruffian and robber may do that."

"I have seen Captain Crowder himself in the army of Cornwallis. My father knows him, and I do too."

"You know his face, and that is all.

He may be a good enough British soldier when he is with Cornwallis, but elsewhere he is anything that suits his purpose. Look at him and his comrades now."

Every man had produced a bottle and was drinking deeply from it. The odor rose and was too strong to be swept away by the wind.

"Look at them," I repeated. "I congratulate you on your company."

They drank deeply and replaced their bottles in their pockets, where I was sure they were not destined to remain long. The red fled from the girl's face, but she said nothing, and giving me the same curious look of mingled triumph and defiance went back to her old place on the log. There she sat, staring straight into the fire, as if she were wholly oblivious of me and the other men around her.

The partisans were in great glee. They laughed and cracked rough jokes, and presently, as I had expected, pulled out the bottles again and took a long, deep draft, once, twice, thrice. Their faces flushed from the effect of the strong spirits, and the loudness and roughness of their talk increased. Crowder, the leader, was the loudest and roughest of them all.

"That was a fine song you sang to that fellow there when you set him trapping for us to catch, Miss Howard," he said presently, "and we like music, too, don't we boys?"

"Yes, yes!" they roared, all together.

"And won't you kindly sing that song or another as good for us, Miss Howard?" he continued.

She made no answer, staring straight at the red embers, her cheeks pale.

## ONE WAY OUT

A Resident of East Liverpool Shows the Way.

Only one way to cure a bad back. Liniment and plasters may relieve it.

They won't cure it.

Backache means sick kidneys.

Doan's Kidney Pills cure all kidney ills.

East Liverpool people prove this.

Read a case of it:

Mr. G. H. Garner, the well known manufacturer of ice cream, at 168 Jackson street, says: "My trouble set in with a soreness and stiffness over my whole body; my appetite was poor and I was annoyed a good deal with bloating at the stomach. There was also a urinary difficulty, and I felt generally used up. I tried two or three different remedies, but they did not do me the least good. Having heard Doan's Kidney Pills so highly spoken of, I made up my mind to try them and I procured a box at the W. & W. pharmacy. I did not take over half of it before I was entirely free from any trouble, my appetite was good and my old time vigor restored. I recommended them to many of my friends, among them P. J. Green, V. S., and they all speak of them in the highest terms."

## The Doctor's Indiscretion.

"There is no profession which calls for the use of more discretion than the profession of medicine," remarked a well known physician of this city.

"Just to give you an instance:

"I came home late one evening after a very busy day and was told by the office boy that a certain Mrs. S. had called me up three times on the telephone. As her young hopeful had scarlet fever and I was afraid he had taken a sudden turn for the worse, I got central to connect me with her house without delay.

"The missus has gone to bed, sir," said the voice of a maid in reply, "but she was so anxious to know if she could wash Tommy's face."

"I called back that she had better ask the nurse if it was dirty. Now they have another doctor,"—New York Mail and Express.

Delegates at Boston From Different Quarters of the Globe.

## CENTENNIAL TO OPEN TODAY.

It was Expected That Nearly 5,000 Delegates Will Be in Attendance at the Six Days' Sessions—Interesting Exhibits.

Boston, June 11.—Streaming into Boston from nearly every quarter of the globe came delegates Monday to the semi-centennial and international convention of the Young Men's Christian Association of North America. Practically every civilized country in the world likely will be represented today when the convention is called to order in the exhibition hall of the Mechanics' building, and it is confidently expected that there will be nearly 5,000 delegates from the different associations in attendance during the six days the convention is in session.

Those who reached here Monday afternoon scarcely paused to shake the dust of travel from their clothes before appearing at the headquarters, where a large force of officials was ready to assign suitable boarding places and attend to the needs of the visitors.

Probably not a delegate left the building without a thorough inspection of the Jubilee exhibit in one of the large halls of Mechanics' building. This consists of photographs of Y. M. C. A. camps, athletic teams, gymnasiums and diagrams of work done in Bible study, sent by associations in all sections of the country. Awards of merit, consisting of blue ribbons and red ribbons, for first and second prizes, had been distributed among the different classes of exhibits.

The exhibit contained material from all kinds of associations in all departments of activity, and designed to graphically present the history of the movement in the American associations for the past 50 years.

Apart from this there was material showing the nature and extent of work done in the most important Bible study and religious work activities, the practical educational work in its numerous phases of library, reading room, literary societies and valuable class work; the important physical work and all that stands for symmetrical body building and clean sport; the local work, employment bureau, women's auxiliary, and the newly appreciated and vastly important work for boys.

The first of the delegates to arrive were those from the most distant, one party from Adelaide, Australia and another from Japan getting in early. The first named party, however, journeyed west, while the Japanese delegates went east to the Y. M. C. A. mecca of 1901. Another party from Minneapolis came in early in the day and were promptly and warmly welcomed by the local committee.

## THREAT OF A JUDGE.

Would See Whether Preachers Could Be Held For Contempt.

Denver, June 11.—Judge Peter L. Palmer administered a severe judicial rebuke to more than 100 so-called reformers who appeared in his court to protest against the granting of injunctions against the city and fire and police boards in the cases of restaurants claiming the right to serve links on Sunday with meals, and a saloonkeeper who held that under the law he was entitled to sell liquor to women at the bar.

The judge closed his remarks by declaring that he intended to make judicial inquiry into the question of whether or not certain clergymen of Denver, who denounced him in their pulpits, were in contempt of court, and that if he satisfied himself that they were he would immediately take up their cases and give them the full punishment under the laws.

## LARGEST OF SCHOONERS

A Seven Master to Be Constructed Soon.

## DESIGNED BY CROWNINSHIELD.

IT WILL Be the First of Its Kind In Existence and WILL Be One of a Fleet of Seven—All the Lawson Family Interested—Her Enormous Canvas.

Several of the leading shipbuilding concerns on the Atlantic coast are preparing bids for the construction of a seven masted steel schooner, destined to be the largest and greatest cargo carrying craft of that type ever put afloat, says a Boston dispatch to the New York Sun. This vessel is the first of a fleet of seven which will be constructed by a syndicate of which Captain J. G. Crowley, brother of the Captain Crowley of the six master George W. Wells of Taunton, Mass., is the head. The craft will cost when ready for sea about \$250,000, divided into sixty-fourths, and there are about 20 persons who have subscribed the sum necessary for her construction.

The schooner is designed by B. B. Crowninshield, the Boston naval architect, who is also a shareholder, as are Captain Crowley, Thomas W. Lawson and every member of his family and others in Boston. In point of size the schooner will be the largest sailing craft ever built in the United States, and it is expected that her earnings as a cargo carrier will be large. Her length on deck will be 305 feet; on her keel, 333 feet, and at her load water line, 370 feet. The beam of this long vessel will be 50 feet at her widest point and the depth of hold 30 feet. She will draw 26 feet of water when loaded to her limit and will displace 11,000 tons, or about the same as the modern battleship. Her gross tonnage is estimated at 6,000 tons, a thousand more than can be carried by the six masters George W. Wells and Eleanor A. Percy.

The spread of canvas will not be anything great, considering the enormous size of the craft, but her sails will be of larger total area than ever hoisted by a sailing vessel. The seven masts will be built of steel in the same manner as are the hollow metal spars for the modern cup defenders, and solid wooden topmasts will be set in the head of each. The height of each mast with its connecting topmast will be 150 feet above decks, and the rigging to support these tall sticks will be of enormous size and great strength. No name has been selected for the last or second mast as yet. The names of the six running aft are: Fore, main, mizzen, spanker, jigger and driver.

As the construction of a vessel of such great size will require a combination of great strength and not too great weight the entire craft will be built of steel. Not a bit of wood will be used except for the cabin fittings and for sheathing the upper deck. The plating, beams, stringers and decks will be composed entirely of steel, and even the three low houses on deck will be built of metal.

The thickness of the steel plates for the sides of the hull will vary from a half to nearly an inch in thickness. The top sides, or shear strake, will be the thickest. Down the sides and on the bottom the steel will measure a half inch through, while the bilges will be three-quarters of an inch thick. On either bilge for about half the length of the vessel steel bilge keels, firmly secured by angle irons, will prevent the craft from rolling too much.

The frames of this great vessel will be made of steel channel bars nine inches deep, and longitudinal stringers will be put in at frequent intervals to distribute the strain. There will be three decks, but the lower one will not be plated, the beams and stringers being left open to allow the stowing of cargo to better advantage. On the upper or poop deck, running the entire length of the vessel, will be three houses. In the forward one will be the forecastle, engine and boiler rooms. The galley house will be built pretty well aft, and farther astern will be another engine house. She will be steered by steam, will be steam heated and have electric lights. A double bottom five feet deep amidships and running the entire length of the keel will permit the use of water for ballast when sailing light.

## 30 MEN ENTOMBED.

A Coal Mine Shaft on Fire at Port Royal Penn-sylvania.

NUMBER OF RESCUERS TRAPPED.

Believed That an Explosion Started the Fire and That Six Men Were In the Mine at the Time—More Details of the Affair Were Expected.

Port Royal, Pa., June 11.—The Pittsburg Coal company's shaft No. 2, at this place, is again on fire, after steady running for about seven years, and over 30 men are in the mines, many of whom, it is feared, will perish. The names of all those known to be entombed cannot be learned, but the following are known: Jock Peoples, married, and has a wife and two children at this place. Tony Stickles, married.

Frank Davenport, married.

Daly.

William McCune, superintendent of the district; home at West Newton.

Dennis Wortley, pit boss of the mine.

Michael Roy, a foreman of the Euclid mines.

About 30 other miners.

Smoke was seen to be issuing from shaft No. 2, which is on the line of the Pittsburg and Lake Erie railroad. It is thought the fire started from an explosion, and that six men were in the mine at the time of the explosion, the men being Jock Peoples, Tony Stickles, Frank Davenport, Daly, Lawrence Setler and John Stakes.

Stakes and Setler were not near the place in which the explosion occurred, and upon the arrival of a rescue party were quickly brought to the surface, after being nearly overcome by afterdamp. They could give no information as to what had caused the fire, and told the rescue party that four other men were entombed.

Superintendent William McCune, of West Newton, general superintendent of this district; Dennis Wortley, pit boss of the mine; Mike Roy, foreman of Euclid mines, and several other bosses and about 20 men went down shaft No. 1, which is just opposite on the Baltimore and Ohio side of the river. They had been down about three hours, when two more distinct but small explosions were heard. Since that time no one in the mine has been heard from.

There is some talk of turning the river into the mines, as it would only be necessary to pull the plugs which were put in at the time of the explosion about seven years ago. Davenport has a wife, Stickles a wife and one child and Peoples a wife and two children. Daly is just a new man.

The explosion occurred about one mile from shaft No. 2, toward Smithton. Four men volunteered to go down Nos. 2 and 3. Gas and smoke were coming out of both mines. There were about 200 men, women and children waiting for some news. Doctors were called and assistance was being offered by everyone. The names of those now entombed cannot be learned, but the last relief was expected to bring some important news to the top. The mine runs under the river, so it will be an easy matter to run the river into it in case it becomes necessary.

Pittsburg, June 11.—John and Edward Biddle and Walter Dorman, the Biddle-Dorman gang of burglars and thieves, were arraigned in criminal court upon the charge of murdering Grocer Thomas Donnelly Kahney, on April 12 last.

Dorman pleaded guilty to the charge and will testify against his alleged accomplices. The grade of his crime will have to be fixed by the court after hearing all the testimony in the case.

The attorneys for the Biddles demanded a severance and the district attorney elected to try John Biddle. The work of empanelling a jury then began and one was secured.

## Women Wonder Why

They are doomed to so much suffering. But are they doomed? Is not the suffering the result of conditions which under skillful treatment might be entirely cured? Thousands of women who had been great sufferers, have learned that suffering was unnecessary after using Dr. Pierce's Favorite Prescription. It heals diseases of the delicate womanly organs and banishes the headache, backache and other aches which are the consequence of these diseases.

"Favorite Prescription" is absolutely a temperance medicine in the strictest meaning of the term. It contains no alcohol and is free from opium, cocaine and all other narcotics.

"I wrote you for advice February 4th, 1866," writes a woman of the Hedges of Claremore, Cherokee Nat., Ind. "I was walking with pain from the back of my head down to my feet. Had hemorrhage for weeks at a time, and was unable to sit up for ten minutes at a time. You answered my letter, advised me to use your valuable medicines, viz., Dr. Pierce's Favorite Prescription, 'Golden Medical Discovery,' and Pleasant Pellets, also gave advice about injections, baths and diet. To my surprise, in four months from the time I began your treatment I was a well woman and have not had the least trouble since, and now I put in sixteen hours a day at hard work."

Sick women are invited to consult Dr. Pierce by letter free. All correspondence private. Address DR. R. V. PIERCE, Buffalo, N. Y.

## Biliousness

"I have used your valuable CASCA-BETS and find them perfect. Couldn't do without them. I have used them for some time for indigestion and biliousness and am now completely cured. Recommend them to every one. Once tried, you will never be without them in the family." EDW. A. MARX, Albany, N. Y.

The parlor entertainer has some amusing experiences, although he is not always good natured enough to tell them against himself. One who appreciates a joke, however, relates that on a certain occasion he had been performing at an "at home" and responding to so many encores that the programme became unusually long.

After it was over his hostess with her young daughter came up to him and, after congratulating him on the success of the afternoon, said most cordially:

"Oh, Mr. Blank, come and have some refreshments and sit down for awhile. I know you must be awfully tired."

## A Name Twice Made Famous, Now a Shining Mark for Imitators.

The name "Chase," twice made famous, is a shining mark for the unscrupulous to pounce upon and appropriate in order to foist upon the public their worthless preparations. These birds of prey, by using the name Chase, expect the public to be fooled into believing they are the medicines of Dr. A. W. Chase, who first became noted as the author of the world-famed Dr. Chase's recipe book and family physician, and whose fame is now doubly increased by the wonderful success of his Nerve Pills, with Nerve, Brain and Blood troubles. They play upon the name Chase, but dare not use the initials "A. W."

They imitate, but dare not counterfeit the portrait and signature of Dr. A. W. Chase, which identifies the Nerve Pills now recognized as infallible for building up pale, weak, thin-blooded, nerve exhausted sufferers.

A syndicate of New York and Philadelphia capitalists has nearly completed plans for harnessing the water power of the Susquehanna river in Maryland and generating electricity on a large scale for transmission to Baltimore, Wilmington, Chester, Philadelphia and other cities, says the New York Post.

It is proposed to build three power houses, each with a capacity of 40,000 horsepower, and thus make enough electricity to supply all the neighboring country. The experts who have reported upon the situation say that when the new company has its lines established in the cities the current can be supplied for about 30 per cent less than those now in existence.

## DORMAN PLEADED GUILTY.

Biddies Pleaded Not Guilty—John on Trial.

Pittsburgh, June 11.—John and Edward Biddle and Walter Dorman, the Biddle-Dorman gang of burglars and thieves, were arraigned in criminal court upon the charge of murdering Grocer Thomas Donnelly Kahney, on April 12 last.

Dorman pleaded guilty to the charge and will testify against his alleged accomplices. The grade of his crime will have to be fixed by the court after hearing all the testimony in the case.

The attorneys for the Biddies demanded severance and the district attorney elected to try John Biddle. The work of empanelling a jury then began and one was secured.

## MILES' SON-IN-LAW ON HIS STAFF.

Washington, June 11.—The vacancies on the staff of Lieutenant General Miles, commanding the army, caused by the death of Lieutenant Colonel Francis Michler and the transfer to the inspector general's department of Lieutenant Colonel H. K. Bailey, have been filled by the assignment of Lieutenant Colonel Samuel Reber to duty as military secretary and the assignment of Lieutenant Colonel M. P. Mans to duty as aide de camp. Colonel Reber is General Miles' son-in-law.

Desperado and Two Officers Killed.

Corbin, N. Y., June 11.—In an attempt to arrest Andrew Cox, who was resisting the officers in his home, Chief of Police Wilder and Deputy Sheriff Branham were killed. As he fell mortally wounded, Wilder shot and instantly killed Cox.

## LIEUT. LEE, OF ENGINEERS, KILLED.

Manila, June 11.—The officer named Lee, who was killed, not wounded, in the recent battle with insurgents at Lipa, province of Batangas, was Lieutenant Lee, of the engineers, not Lieutenant Fitzhugh Lee, Jr., as previously cabled.

KILLED HAMILTON; THEN SUICIDED.

Newport, O., June 11.—James A. Hamilton, who had separated from his wife, was shot and instantly killed in an encounter with Robert Arey, near the Hamilton home. Arey then committed suicide.

## HINT OF GOLD AT BEAUMONT.

Mr. W. R. J. Stratford, who is drilling the Landrum well, 12 miles south of Beaumont, Tex., came in the other afternoon and brought with him a metallic substance which was said by persons who saw it to be gold. The substance was taken from the Landrum well at a depth of 900 feet and is described as a piece of fine gold weighing 2½ pounds.

KILLED HAMILTON; THEN SUICIDED.

Newport, O., June 11.—James A. Hamilton, who was arrested on a charge of having robbed the First National bank of Mineral Point, Wis., June 11, confessed, according to three weeks ago, that he had \$5,000 in his possession. He has informed the police that he is said to be where this package

Bank Thief Pleaded Guilty.

Egan and Charles Francis, United Rev. G. Campbell Morgan is a Congregationalist clergyman, who is to the United States to take the work of the late Dwight L.

Ex-Commercial Agent Suicides.

Bamberg, Bavaria, June 11.—Louis Stern, the former United States commercial agent here, shot himself in the public garden near the town.

## 30 MEN ENTOMBED.

A COAL MINE SHAFT ON FIRE AT PORT ROYAL PENNSYLVANIA.

## NUMBER OF RESCUERS TRAPPED.

Believed That an Explosion Started the Fire and That Six Men Were in the Mine at the Time—More Details of the Affair Were Expected.

Port Royal, Pa., June 11.—The Pittsburg Coal company's shaft No. 2, at this place, is again on fire, after steady running for about seven years, and over 30 men are in the mines, many of whom, it is feared, will perish. The names of all those known to be entombed cannot be learned, but the following are known:

Jock Peoples, married, and has a wife and two children at this place.

Tony Stickles, married.

Frank Davenport, married.

William McCune, superintendent of the district; home at West Newton.

Dennis Wortley, pit boss of the mine.

Michael Roy, a foreman of the Euclid mines.

About 30 other miners.

Smoke was seen to be issuing from shaft No. 2, which is on the line of the Pittsburg and Lake Erie railroad. It is thought the fire started from an explosion, and that six men were in the mine at the time of the explosion, the men being Jock Peoples, Tony Stickles, Frank Davenport, — Daly, Lawrence Setter and John Stakes.

Stakes and Setter were not near the place in which the explosion occurred, and upon the arrival of a rescue party were quickly brought to the surface, after being nearly overcome by afterdamp. They could give no information as to what had caused the fire, and told the rescue party that four other men were entombed.

Superintendent William McCune, of West Newton, general superintendent of this district; Dennis Wortley, pit boss of the mine; Mike Roy, foreman of Euclid mines, and several other bosses and about 20 men went down shaft No. 1, which is just opposite on the Baltimore and Ohio side of the river. They had been down about three hours, when two more distinct but small explosions were heard. Since that time no one in the mine has been heard from.

There is some talk of turning the river into the mines, as it would only be necessary to pull the plugs which were put in at the time of the explosion about seven years ago. Davenport has a wife, Stickles a wife and one child and Peoples a wife and two children. Daly is just a new man.

The explosion occurred about one mile from shaft No. 2, toward Smithton. Four men volunteered to go down Nos. 2 and 3. Gas and smoke was coming out of both mines. There were about 200 men, women and children waiting for some news. Doctors were called and assistance was being offered by everyone. The names of those now entombed cannot be learned, but the last relief was expected to bring some important news to the top. The mine runs under the river, so it will be an easy matter to run the river into it in case it becomes necessary.

## THEY WERE ALL TIRED.

The parlor entertainer has some amusing experiences, although he is not always good natured enough to tell them against himself. One who appreciates a joke, however, relates that on a certain occasion he had been performing at an "at home" and responding to so many encores that the programme became unusually long.

After it was over his hostess with her young daughter came up to him and, after congratulating him on the success of the afternoon, said most cordially:

"Oh, Mr. Blank, come and have some refreshments and sit down for awhile. I know you must be awfully tired."

"Yes," chimed in the sweet young daughter, with the best intentions in the world; "I'm sure we are."—New York Mail and Express.

**SOME NEWS OF INTEREST.**

Elaborate preparations have been made for the celebration of the silver jubilee of the ordination of Dean B. J. Mulligan, rector of the Roman Catholic church of the Immaculate Conception, of Camden, N. J.

Much of the business section of the town of Wilson, Niagara county, N. Y., was burned. The loss is \$40,000. The postoffice, Sutherland's hotel and many stores were consumed. The village had no fire department.

Rome advises say it is rumored about the Vatican that an American envoy is en route for Rome from President McKinley to settle the much mooted question of Catholic religions and property interests in Cuban and the Philippines.

Advices from Amsterdam say that former President Kruger has gone to The Hague because Queen Wilhelmina of Holland, Kaiser Wilhelm and Czar Nicholas have offered their good offices in the mediation of affairs in South Africa under the provisions of The Hague convention.

The inquest into the death of Dr. William Hudson Daly was held by Coroner Jesse M. McGeary. A verdict of suicide by shooting was rendered. No witnesses were placed on the stand, the verdict being rendered by the jury from the affidavits of Mary Short, his former housekeeper, and Dr. W. S. Foster.

The confessed murderer of millionaire Rice, in New York, Valet Jones, is fast approaching death. He has been in Dr. McAlister's sanitarium for about five weeks. Physicians in attendance think that Jones, who is haunted by the dying laugh of the man he says he killed at Albert D. Patrick's order, will last only a few days longer.

Albert T. Patrick, Morris Meyer and David Short were arraigned before Judge Cowing in New York, and all, through their counsel, Robert Moore, pleaded not guilty. The indictment charged Patrick with murder, forgery and perjury, and Meyer and Short with forgery and perjury. Patrick smiled and the other two prisoners looked unconcerned.

The temporary appointment of J. O. Brown to the directorship of the department of public safety at Pittsburgh was made permanent by Recorder A. M. Brown. The same action was taken with respect to City Solicitor Clarence Burleigh. The announcement of the appointments was made at the conclusion of a conference that lasted over an hour in the recorder's office.

The report that Charles M. Schwab has purchased control of the Bethlehem Steel company is premature. Joseph Wharton, from whom Schwab was said to have bought 80,000 shares of Bethlehem stock, denied that his holdings had been parted with, but admitted that negotiations were being conducted with Schwab and that they might be concluded Wednesday. He said he did not know for whom Schwab was acting.

The body of 11-year-old Bertha Jackson, the adopted daughter of R. S. Flower, a dairymen living at Popular Springs, near Atlanta, Ga., was found. The girl had been missing from home. The throat of the child was cut. A physician testified that she had been assaulted. Cathro English, colored, has been arrested charged with the crime. English left Flower's employ the night after the girl disappeared. He will probably be tried for the crime.

Plans are reported to be under way to connect Louisville and Nashville by another railroad. The promoters, it is said, propose to buy or lease the Shelbyville and Bloomfield road, build it to Lebanon and connect there with the Southern division of the Cumberland and Ohio. This road will be extended from Greensburg to Scottsville, where it will connect with the Chesapeake and Nashville to Gallatin, when the road will be built into Nashville. It is claimed that this will give a 35-mile shorter route to Nashville and open up vast coal and timber lands.

The Central News Rome correspondent telegraphs that official circles in Rome are expecting important developments in Crete because of news received in the Italian capital that the Cretans have decided on the annexation of the island to Greece, and that preparations are in progress at Athens for a military occupation of the island. The dispatch further states that on Saturday Senator Prinetti, the Italian minister of foreign affairs, held a conference with the British, Russian and French ambassadors at Rome against the Cretan situation.

A Bucharest special says that the city council there was the scene of a desperate fight. Councilman Ciacanelli accused a fellow councilman, Rocco, of being a professional smuggler. Rocco attacked Ciacanelli and the latter knocked him down, nearly murdering him with his first blow. Gendarmes went to assist Rocco, whereupon strangers in the gallery hurried to help Ciacanelli. In the clash of the two sides blood flowed freely until more gendarmes arrived and ended the struggle. Eighteen persons were severely wounded in the melee.

REV. GAMEWELL TALKED.

He Described at Missionary Meeting the Siege of Pekin.

Clifton Springs, N. Y., June 11.—The address before the International Missionary Union Sunday evening was delivered by Rev. F. D. Gamewell, of China, who took for his subject "The Siege of Pekin as seen by a missionary from inside the breast works." His remarks were all based upon personal observation and were very interesting. At a platform meeting Monday the subject of discussion was "Medical missions; their value in opening door of opportunity for evangelistic and other works." All the speakers were agreed upon the good points of this work, owing to its influence to establish faith between the heathen and the missionary.

A Judge Resigned.

Hartford, Conn., June 11.—Chief Justice Charles B. Andrews, of the supreme court, has sent his resignation to Governor McLean. Ill health is the reason for the resignation, and the date fixed for retirement is Oct. 1.

**NEW TRANSIT LEGISLATION.**

Supplement to Foch Bill Introduced In Pennsylvania Senate—Another Measure Offered.

Harrisburg, June 11.—A highly important incident of the rapid transit legislation took place in the senate last night when a supplement to the Foch act was introduced by Senator B. K. Foch, of Union, and a new bill was presented by Senator John M. Scott, of Philadelphia.

The supplement provides that any company chartered to build either an elevated or an underground railway shall have power and authority to build either an elevated or an underground railway, or both, over the route described in its charter.

The Scott bill provides that underground or elevated, or partly underground and partly elevated railways shall be located only upon streets in thickly populated regions and that the question of necessity shall be passed upon by a board consisting of the governor, the secretary of the commonwealth and the attorney general, after 30 days' notice, published as prescribed by the board.

In public interest the Scott bill is of the greater importance. The advocates of the measures say both will go through the senate and house in the shortest time allowed by the rules and the calendar.

**ORDINANCES INTRODUCED.**

**Fourteen For New Railways Offered at Philadelphia.**

Philadelphia, June 11.—Fourteen ordinances were introduced in councils, 13 of which asked franchises for various street railway companies, the remaining one providing for the revoking of all privileges granted to companies which have not taken advantage of these privileges within the time fixed by previous ordinances.

The franchises were for three general classes of roads, underground, surface and elevated. The five elevated road ordinances each contain the same verbiage and only differ from each other in the list of streets to be occupied. The seven surface ordinances are drawn in similar fashion. One bill authorizes the construction of a subway under Broad street.

All of the bills were introduced in the interest of two principal companies, known as the Surface Railway company and the Elevated Railway company.

The charters were granted by the state legislature last week, with the provision that the consent of the municipality must be secured before they become operative.

**Must Be Present to Vote.**

Harrisburg, June 11.—Speaker William T. Marshall last night announced to the house that he had instructed the clerks not to record any member present and not voting on any question hereafter. The statement was the result of several ugly rows over alleged falsified roll calls and was made incidentally to an attempt by "Farmer" Creasy (Democrat), of Columbia, to defeat approval of Friday's journal containing the vote on the Lackawanna hospital bill.

**Wabash May Have Bought It.**

Logansport, Ind., June 11.—The El River Railroad company was sold here at receiver's sale to E. Smith, of New York, representing the stockholders' committee. Mr. Smith was the only bidder and the property was knocked down to him for \$1,000,000. It is generally considered that the Wabash Railroad company, which has operated the road under a 99-year lease, is the real purchaser.

**Appointed Superintendent of Awards.**

Buffalo, N. Y., June 11.—Dr. Henry Pritchett, of Boston, president of the Massachusetts school of technology, has been selected by the Pan-American board of directors to serve the exposition as superintendent of awards. A jury of awards will be selected to act with Dr. Pritchett.

TWO CENTS

17TH YEAR. NO. 309.

## A 14-YEAR OLD BOY DROWNED IN SIGHT OF COMPANIONS

Got Beyond His Depth While Bathing at Newell's Landing.

OTHERS PAID NO HEED

To His Cries For Help, Thinking He Was Trying to Fool Them.

RAGIC FATE OF YOUNG O'REILLY

His Father a WellKnown Potter of This City—Dynamite Used in the Search for the Body—How the Accident Occurred.

PATRICK O'REILLY, of Drury lane, aged nearly 14 years, was drowned while bathing in the river near Newell's landing, opposite the West End, at about 4 o'clock yesterday afternoon. Young O'Reilly, in company with about a dozen other boys, was bathing in the river here when he got beyond his depth, and being unable to swim, sank beneath the waves before assistance could reach him. He appealed to his playmates for help but they thought he was joking, and the unfortunate lad went down for the last time before they realized the seriousness of the situation. Then they procured a skiff and started for the place where he had sunk in a vain attempt to save him.

A number of ladies who had visited the Newell tract and were waiting for the boat to return, reached the landing in time to see the boy go down the last time. They gazed on in horror, but were powerless to aid him.

James Newell was informed of the accident and immediately telephoned the news to police headquarters in this city and to the D. E. McNicol pottery, where it was thought the boy's father, William O'Reilly, was employed.

The only thing on the lad's person when drowned was a string around his neck, to which was attached a "Gospel" and crucifix, and for this reason it was known from the start that it would be difficult to recover the body. Chief Thompson is on the scene today and a searching party has been dragging the river almost all the time since the accident occurred. Dynamite is also being used, but all attempts to recover the body up to noon today have proved fruitless.

The boys went to the river with the intention of taking advantage of the free excursion offered by the Newell Land company and when told that boys were not included in the offer and put off the boat, they slipped back on again and hid behind the pilot house until the boat had pulled out from the landing. They remained on the West Virginia shore when the boat returned and went in bathing just below the landing, much to the dislike of the real estate people who knew nothing of the affair until the accident was reported to them. Mr. Newell then informed the boys that if any of them were found on the boat again they would be arrested and sent to the county jail at New Cumberland. The two men in charge of the boat were also instructed to be more vigilant in keeping the boys off the vessel.

The boy has been working at the Dresden pottery, but quit his job several days ago. He told his mother that he had secured employment at the Cartwright plant and was to start yesterday morning.

When he went home to dinner he told his mother he was working. He left the house and that was the last seen of him alive by his parents.

He was born in Donegal, Ireland, in 1888, and came to this country with his parents in 1893. The family came direct to this city from New York and have resided here since.

He is survived by his father and mother, three sisters, Maggie, Mary Ann, Bridget, and one brother, William.

Up to 3 p. m. the body had not been found.

**EAST END****TENNIS CLUB FORMED**

**EAST END YOUNG PEOPLE HAVE ORGANIZED.**

**They Have Excellent Grounds And Good Players—Several Matches Expected.**

The organization of the latest and perhaps the most important athletic club to be formed in the East End this year was completed last evening when the "East End Tennis Club" made its formal debut. The members of the club held their first meeting last evening, when the name for the organization was chosen and officers elected as follows: President, Thomas Fisher; secretary, E. P. Carman; treasurer, Frank Chambers.

Committees were appointed to purchase supplies, keep the grounds in condition and arrange for games with other clubs.

The club has had two lots at the corner of Mulberry street and Ohio avenue graded and put in first-class condition and fenced with a wire netting 10 feet in height. This is divided into a doublet court and is the only first-class tennis ground within the entire city at the present time.

The club is composed of a number of star players, as well as some amateurs, and has among its membership the most prominent young men of the East End, and as honorary members a number of popular young ladies.

Arrangements are already in progress for contests with clubs from Wellsville, Lisbon, Alliance and Rochester.

Any clubs desiring to arrange for a game should communicate with R. L. E. Chambers, First National bank building, city.

**TEACHER RE-ELECTED**

**Lloyd Fisher Will Again Have Charge of Neville Institute for a Year.**

The trustees of Neville Institute held their annual meeting at the institute building at Dry Run last evening. The term of officers elected at the last annual meeting continues through the present year. The trustees appointed several committees for the present year and elected Lloyd Fisher teacher for the ensuing term.

Mr. Fisher was employed here last year and his work had been very satisfactory. The affairs of the institute were in first-class condition.

**TUMOR REMOVED**

**By Dr. Davis From the Cheek of John Nelson, of Klondike.**

John Nelson, of Klondike, underwent a surgical operation at Dr. Davis' office yesterday evening. A large tumor was removed from his right cheek. The operation was very painful, but Mr. Nelson is progressing nicely and will probably be back at his work in a day or two.

**POLITICAL MATTERS**

The result of the primaries in Logan county in regard to the rule to be followed in the coming senatorial convention resulted in a decisive victory for the two-term theory, which means the unanimous nomination of Senator W. G. Harding, when the senatorial convention meets. John West was a candidate for the nomination for the place if his county declared in favor of one term and out, but he was defeated on that proposition.

"Uncle Abe" Patrick is a candidate for the Democratic nomination for governor. The announcement was formally made at the Tuscarawas county convention Saturday. That same convention adopted a Tom Johnson platform, and it is therefore inferred that Patrick will be backed by Cleveland's mayor and his friends in opposition to Colonel Kilbourne.

The Republicans of Muskingum county will hold their primaries for the nomination of a county ticket Saturday. Under the new legislative apportionment the county will be entitled to but one representative in the next assembly. The leading candidate for the nomination is Ernest Carr, a well known educator.

"There has been no time in our history when conditions would so justify the election of a president to a third term as in the case of McKinley." It is said this remark was made by Congressman Charles H. Grosvenor.

All the Mahoning county candidates for representative have been interviewed and declare themselves unqualified for Foraker as senator.

**A JOSSHOUSE.**

**Pen Picture of the One In San Francisco's Chinese Quarter.**

In one corner is a miniature wooden warrior, frantically riding a fiery steed toward a joss who stands in his doorway awaiting the rider's coming. A teapot of unique design, filled with fresh tea every day, and a very small cup and saucer are always ready for the warrior. This represents a man killed in battle, whose noble steed, missing his master, refused to eat and so pined away and died. A welcome is assured to them in the better land if the work of man can accomplish it. The horse and rider are to them (the Chinese) what the images of saints are to Christians. In another corner is a tiny bowl of water. The gods occasionally come down and wash. At certain times of the year direct questions are written on slips of paper and put into the hands of one of the greatest josses. These disappear, and then the joss either nods or shakes his head in answer.

On the altar or altars are several brass and copper vessels, in which the worshiper leaves a sandalwood punk burning in such a position that the ashes will fall on the fine sand in the vessel. When one of these is full, it is emptied into an immense bronze vase on the balcony, and this, in turn, is emptied into the ocean. The Chinese take good care of their living and never forget their dead. Once a year, the fourteenth day of the seventh month, they have a solemn ceremony by which they send gold and silver and cloth to the great army of the departed.

A furnace is a necessity in a joss-house. It is lighted on ceremonial days, and paper representing cloth, gold and silver is burned, the ashes of the materials being, in their minds, useful in spirit land. Private families send to their relatives and friends whatever they want by throwing the gold, the silver and the cloth paper, also fruits, into a fire built in the street in front of their houses. The days of worship come on the 1st and 15th of each month.—Modern Culture.

**THE TALE OF A TACK.**

**How an Italian Tenor Was Enabled to Reach High C.**

"There was once an Italian tenor at Covent Garden of the name of Tasca, who I am sorry to say, sang his own praises better than the score," says Mr. William Parry, the stage director at the Metropolitan Opera House.

"For this and other reasons he was strongly disliked by all the workmen. One day he came to me and said, with great show of mystery:

"Tell me the exact spot."

"I could not for the life of me understand what he wanted."

"You know well enough what I mean," he persisted. "Show me the spot where Tamlerlik sang the high C. There is always one spot on the stage that is better than all the others to stand on when you sing. Where is it?"

"I'll show you later," I replied. "But, remember, never a word. It would cost me my place if it should leak out."

"Then I drove a brass tack into one of the stage boards, and he was overjoyed when I solemnly pointed out 'the exact spot,' and so were the workmen at the prospect of a joke at his expense. That night he carefully stood on the tack and sang the high C. Rushing into the wings, he exclaimed: 'Beautiful! Wonderful!' Ever afterward, no matter what part of the stage demanded his presence, he would rush to the tack when the time for the high C came and there deliver it."—Saturday Evening Post.

**POLITICAL MATTERS****WELLSVILLE****BURGLAR IN THE HOUSE**

**AND A COLORED WOMAN LEAPED FROM THE WINDOW.**

**Left Her Baby Asleep—Police Could Not Find the Robber.**

A burglar broke in to the house of Charles Benford, colored, last night about midnight. Mrs. Benford was sleeping upstairs with her baby and the stair door was locked. The man entered through a window on the ground floor and attempted to open this door.

The noise awakened Mrs. Benford and she jumped out of the window, leaving her baby in the bed. She ran screaming to her mother's house on Broadway and aroused the neighborhood.

The police were called. They broke into the house and got the baby, but could find no burglar.

**POPULAR TEACHER RESIGNS**

**Miss Ida M. Taylor Required at Home on Account of Father's Illness.**

**Board Meeting.**

At the board of education meeting last night, Miss Ida M. Taylor asked to be allowed to withdraw her application for a position as teacher next year. She says her father is ill and she will be required at home. Miss Taylor for two years has been a very efficient instructor. The board was reluctant to part with her, but her request was granted.

Applications for the office of school librarian were read from Thomas Sheets, Sidney Smith and Frank Workman. A number of bills were presented and ordered paid. Prof. McDonald was instructed to pay all debts incurred at commencement and to pay the remainder of the proceeds to the library fund. The committee on building and repairs was ordered to make all repairs that have been reported, such as broken windows, walks and broken transoms.

The Whitaker Boiler company put in a bid for the making of specifications for new heating apparatus. They will do this for 4 per cent of the cost. If they are given the contract for putting in the apparatus they will not charge anything for specifications. They will agree to use all the old apparatus that can be utilized and will take the rest in part payment for the work.

Dr. Park stated that, according to the motion passed at last meeting, no home men could be considered in the deal. The motion was reconsidered and amended so as to allow any one to bid on the work. The board then went into executive session.

In the executive session of the board the following teachers and officers were chosen:

Superintendent of schools, Prof. J. T. McDonald, three years \$1,800 per year; principal of high school, Miss Ruby E. C. Mason, Toronto, Can., \$111.11 per month; assistants, Pearl Gillette, Utica, N. Y., \$75; Blanch Butler, \$65; Mrs. C. S. Forner, \$60; M. E. Phillips, \$50; Edith Kech, \$50; Pearl Holtz, Bridgeport, \$50; Maude McGregor, \$45; Mabel Boyd, \$45; Maude Sheppard, \$45; Mary Boyd, \$45; Nannie Stevenson, \$45; Stella Keys, \$45; Rena M. Turner, \$50; West and East End buildings—Jennie Dickson, \$50; Lettie Brown, \$45; Nellie Joseph, \$45; Mattie Andrews, \$50; Mary Stokes, \$45; Anna Davidson, \$40. Music instruction—Florence Everson, \$50; supernumeraries, Goldie Murdock, Mary McDonald; janitors, William Culp, \$80; Daniel Tarr, \$40; John Wilcoxen, \$45; librarian, Frank E. Workman, \$3.

**The Professor's Wooing.**

The experience known as "popping the question" is the bugbear of every man, however confident of his charms or fluent of speech. Many original ways of asking young women to marry them have been resorted to by bashful men, but perhaps the most brilliant suggestion came to a learned German professor, who, having remained a bachelor till middle life, at last tumbled head over ears in love with a little flaxen haired maiden many years his junior.

One day, after vainly endeavoring to screw his courage to the sticking point, the learned man came upon his Gretchen as she sat alone, darning a stocking, with a huge pile of the family hosiery on the table. The professor aimlessly talked on general topics, wondering how he could lead up to the subject nearest his heart, when all at once a happy thought came to him.

Leaning forward, he put his big hand on the little fist doubled up inside the stocking and said hesitatingly:

"You darn very beautifully, fraulein. Would you like to darn my stockings only?"

Fortunately the fraulein was not so simple as she appeared. She grasped the significance of the question immediately and lost no time in answering. "Yes."—Youth's Companion.

## ROAD IMPROVEMENT.

Speaking of the agitation in favor of good roads, a Washington correspondent says: "Among other ridiculous things the Good Roads Department of the national government does is to issue literature to farmers to convince them of the necessity of good roads. After a time one may expect the Interstate Commerce commission to issue circulars to the business men of the country asking them to become interested in the necessity of railroads."

Not quite so fast. It may be that farmers who live on improved highways do not need to be convinced of the necessity of using macadam and gravel and common sense when they have a road to build. But let the correspondent become as familiar with the mud roads of Eastern Ohio as he probably is with the asphalt-paved streets of Washington; let him attempt a few buggy rides from East Liverpool to Lisbon, for instance, in the mire of April or October, and we fancy he will become convinced that the agricultural department literature which preaches the gospel of road improvement ought not to be altogether wasted if scattered liberally along that route. And all over Columbian county and a score of other counties there is abundant field for similar missionary work.

The simple fact is that farmers who have never had them do not appreciate the value of good roads. They may think they do, but they do not, or they would not sit idly in the mud and wait for someone to build roads for them. They would go ahead and build them themselves.

Good roads cost a great deal of money, but they are not one-tenth as expensive as bad ones. If a township with a small sum to spend on the highways would go to work and put that money on one small stretch of road, and keep up that work year after year, it would not be long until all its roads were in a fair condition. But there are too many people to be suited to render this practicable, and so the money and effort is spread out over so much ground that nobody is benefited.

If a man wants to build a house, he consults someone familiar with architecture and building material and has his plans matured before he sets to work. If he wants to build a road he takes a shovel and digs in one place while his hired man digs in another. The result is the mud road with which Ohio has been familiar for the past hundred years. We cannot have good roads as long as individuals and townships and counties are content to have their highways constructed after that fashion.

We believe there is need to educate the people on the question—to educate them up to the point where they would as soon plow with a wooden moldboard, as their grandfathers did, as to dig in the mud, in the old-fashioned way, and call the track so marked out a road.

## THE FOOLISHNESS OF FOOLS.

It is an old and familiar adage that the fool and his money are soon parted. But money is not the only thing that the fool squanders recklessly. Frequently he parts with his life, in an effort to show how smart he is. Sometimes he leaps from the Brooklyn bridge and sometimes he goes over Niagara Falls. Rarely he escapes to repeat the exploit. In the winter time he ventures upon thin ice or tries to see how near he can skate to the danger sign without making an item for the newspaper. In the summer he gets in a boat and rocks it. Then the fool becomes dangerous to others beside himself and cannot be suppressed too quickly. According to a dispatch

from Akron, there is one less fool in Summit county than there was last week. The loss would probably not be greatly felt or extensively lamented but for the fact that the fool's prank caused the death of another as well as that of himself.

This particular idiot was in a boat on Summit lake with two companions. To amuse himself and terrify his friends he indulged in the highly humorous pastime of rocking the boat. He rocked it a little too successfully, and all three went into the water. One man escaped after clinging to the overturned boat for two hours. The funerals of the humorist and the man who went down with him will occur as soon as the coroner gets through with their cases. Grown men who are addicted to the habit of boat-rocking ought to be put in a straight jacket until they have reformed, or else set adrift, without oars, in a boat they could rock until fully satisfied with that form of sport.

Andrew Carnegie is amusing himself by making gifts so large that the recipients don't know what to do with them. He need not go abroad for that sort of work. There are millions of people in the United States who are willing he should make them victims of practical jokes of that sort.

The report that the Boer war is to be ended through the intervention of European nations is no sooner made than it is contradicted. European nations mostly have their wisdom teeth cut and know better than to interfere in a family quarrel to which John Bull is a party.

The Syracuse woman aged 100 who lacks nothing save a bicycle to make her perfectly happy is more fortunate than most mortals.

## OBITUARY.

Mrs. Mary A. Stewart.

Word from New Cumberland announces the death of Mrs. Mary A. Stewart, Saturday. Several years ago Mrs. Stewart was stricken with paralysis and has since been an invalid. Some time ago she had a second stroke and since has been entirely helpless. Mrs. Stewart was 72 years of age and was the widow of the late Captain Stewart, who was for many years captain on the Ohio river.

Fannie A. Ritcher.

Fannie Ann, the 8-year-old daughter of Mr. and Mrs. William Ritcher, died at their home in the East End yesterday evening after an illness of several weeks with pneumonia. The funeral will take place tomorrow afternoon and Rev. J. H. Mason will officiate. Interment will be made at the Spring Grove cemetery.

Mrs. Anna Hamilton.

Lisbon, June 11.—(Special)—Mrs. Anna Hamilton, of this city, died last evening of bone cancer. She was 66 years old and had been engaged in the dry goods business here for 22 years. She was the wife of M. N. Hamilton, a prominent druggist, who survives her with four sons.

## TARR WANTS HIS MONEY

Paid a Bill for Infirmary Directors And Asks County to Reimburse Him.

Lisbon, June 11.—(Special)—County Infirmary Director Wm. A. Tarr filed application in court today for a writ of mandamus against County Auditor J. F. Adams. Tarr wants a warrant on the treasurer for \$20, and Auditor Adams has refused to give it. In February the infirmary directors employed Miss Anna Runyon to nurse a Mrs. Gamble, a county charge, who was ill. While so employed Miss Runyon boarded at the Hostetter house at \$4 a week. Tarr says he gave the landlord a voucher for the \$20 for her board and when the auditor refused to order it, he paid the amount himself. He now wants the county to reimburse him. Tarr says the refusal of Auditor Adams to honor vouchers from the board of directors is a matter of annoyance and embarrassment to them and he wants the court to determine their rights and the law on the subject, for the board's guidance in the future.

## GLEANINGS OF A DAY

In and About

## THE LOCAL POTTERIES

Concerning the Coshocton pottery project, in which East Liverpool men are interested, the Coshocton Age says:

"The East Liverpool potters who want to locate a plant in this city have been given a flat proposition and will answer it in a few days. If they decide to accept what Coshocton offers, and the indications point that way, work on the pottery will be commenced as soon as material and men can be procured. The importance of closing the deal at once has been impressed on the company's mind and the stockholders realize that if they want to come to Coshocton they must act promptly."

"Should the pottery project fail there are others to take its place, and the best one will secure the bonus. The board is determined to place the money at hand in some industry, and will act promptly."

The latest applicant for a position at the National plant this morning was Otto Hill, of Jackson county, W. Va. He had some experience working on a farm, he said, and wanted some of the kiln hands to give him a job. Al Creider was the only man in the shop who owned a farm, and as it was being run by him and Ed Ryan they held a conference and decided to employ the young man. He was given a job with the understanding that he was to work from 3 o'clock in the morning until 9 at night, and the sturdy mountaineer accepted the offer with the stoical philosophy characteristic of the moonshiner, and at the direction of his bosses started for the farm on Little Beaver creek. The other kiln hands look for an interesting time when the West Virginian returns.

Local Union No. 4, pressers, held a long and busy session last night and were not through with the business until after 11 o'clock.

The semi-annual election of officers was held, resulting as follows: President, Homer Owen; vice president, Alex Thompson; recording secretary, Ralph Wood; 1 per cent assessment treasurer, David Orr; treasurer, Thomas Osburn; inspector, Harry Conn.

Nothing was done toward the completing of arrangements for the baseball game to be played by this local with No. 12 on July 8, but it is thought the committee will get to work by next week.

pottery presented James Johnston, who has been the foreman of the clay shop, and who goes to Canonsburg, Pa., to take charge of a more remunerative position, with a valuable Masonic badge and a fine silk umbrella. Samuel Shenton, the oldest employee of the pottery, made the presentation speech.

The trustees of the National Brotherhood of Operative Potters met at headquarters last evening and arranged a few matters in connection with the picnic on July 8. Tickets have been out for several days, and the success with which those selling them have met would indicate that the attendance will be very large.

The first shipment of raw material which has been received at the Chelsea pottery at New Cumberland arrived yesterday. A carload of sagger clay was received and is being unloaded today. The town is full of potters today, presumably to secure employment when the plant starts to making ware.

Two small gas explosions occurred at the decorating kilns of the Wallace & Chetwynd pottery yesterday afternoon. There was no damage done, but a number of the employees were badly frightened.

Miss Cora Whitney, who is employed at the National plant, badly mashed her finger while handling ware this morning. She resumed work in the afternoon, although the wound was very painful.

John Pepin has resigned his position in the mold shop at Burford Bros., and has accepted a similar one at the E. M. Knowles plant, Chester.

Howard Marshall has resigned his position as gilder at the William Brunt pottery and left this morning for his home at Athens, O.

Harry Finney, who has been employed at the Laughlin plant, is off duty on account of a severe attack of tonsilitis.

Joseph Chadwick has resigned his position as presser at Burford's and accepted a similar one at Murphy's.

The Union Potteries company made its first shipment of ware today. It went west.

Thomas Copestick has taken a job of pressing at the Burford pottery.

Hill, supplies, \$4.60; Howard E. Moon, supplies, \$1.50; Howard Walter, repairs, \$4; W. C. Birch, repairs, \$3.45; Eagle Hardware, supplies, \$2.28; Robert Hall, \$31.72; J. C. Kelly and force, salary, \$297.92.

## FLASH LIGHT PICTURE

Was the Cause of an Alarm of Fire Being Sent to the Central Station.

The first department was called out late last night in response to a false alarm. Smoke was seen by a passerby in the room occupied by W. H. Gass, on Market street, and Policemen Davidson and Dawson were notified. They made an inspection with the result that an alarm was turned on immediately.

Just as the firemen arrived, Photographe Neillor came out of the Boston store and explained that the smoke seen in the Gass store had been caused by him in taking a flash light picture a few minutes previous. The joke was on the policemen.

Daniel McKeever and wife returned to their home in East Palestine yesterday afternoon. They were accompanied by Mrs. McKeever's mother, who will visit there for several days.

**SOUTH SIDE**  
**SMALLPOX AT MOSCOW**

THREE CASES OF THE DISEASE  
ARE REPORTED THERE.

Alarm in Chester on the Increase But  
No Action Yet  
Taken.

Three new cases of smallpox are reported at Moscow, just below Wellsburg, on the West Virginia side. John D. Stuart is one of the victims and two other members of his family are down with the disease, according to the report of a dairyman who came from Moscow this morning. Attorney G. D. Ingram, who returned from New Cumberland this morning, reports that there are three cases only in that town.

The apprehension felt at Chester has increased with the report that the disease has broken out at Moscow, and much talking is being done, but no action has been taken to protect the town against the disease.

**A STREET RAILWAY**

To the New Town of Newell Now  
Seeks a Charter—Phenomenal Lot Sale.

The most surprising activity in real estate circles in many months is the lot sale at Newell. In three days' time more than 140 lots have been sold. Many of the purchasers are among the best business men in East Liverpool. Every trip of the boat carries people who invariably buy when they get on the ground. A better site for a town could not be found anywhere. Negotiations for several factories are underway on the 100 acres reserved for manufacturing sites.

Representatives of the company were before the county court at New Cumberland yesterday endeavoring to secure a franchise for an electric railway, which it is thought, will be granted, as the objections held when the former application was made has been removed.

Large numbers of people are taking advantage of the free transportation offered by boat from the foot of Market street to Newell's landing to inspect the beauties of the Newell tract.

**THE NEW GAS PLANT**

Work of Construction Begun on a  
Building for Experiments.

Work on the artificial gas plant was begun this morning. The erection of the plant is under the direction of H. C. Hamerton, who is a stockholder in a company of East Liverpool and Chester capitalists who are building the plant. Among these are Will Reed, John N. Taylor, Howard Piper, John Gardner and D. T. McBane.

The plant will be 40x80 feet and will be used for experimenting purposes only, it being the purpose of the company to demonstrate that gas can be manufactured from bituminous coal.

The building will be similar in construction to the one in the East End, and is located on the low ground next to the railroad just below the First street bridge.

**THROWN FROM A WAGON**

A Little Child Falls Out But Escapes  
Any Serious Injuries.

Noble, the 16-month-old child of Geo. A. Arner narrowly escaped serious injury in a runaway this morning. Mr. Arner had left the child on the seat and was removing some groceries from the rear of the wagon when the horse became scared and lunged forward. The seat and child were both thrown off the wagon, but the little one was uninjured.

**WALKS WITH A CANE**

As a Result of Being Thrown From  
the Merry-Go-Round.

Charles Owens was thrown off the merry-go-round at the park last evening and was badly bruised up. No bones were broken, but he is unable to be at work this morning and is walking with a cane.

**CHESTER NEWS NOTES.**  
William Fullerton, of Fairview, was visiting Chester friends yesterday. John Moore, who has been employed at Cumberland, Md., for the past six months, has returned to his home in Chester and will remain here. Attorney G. D. Ingram was in New Cumberland today, where he and Attorney Hart are pitted against Attorneys Donahoe and Lones in a fierce legal battle over the Congo ferry franchise question. The case is before the county court.

Stoutsburg, Mo., May 5, 1900.

Gentlemen:—I have been troubled with indigestion and constipation for the past two years, and have tried every remedy known, and had never received any relief until I was handed a trial bottle of Dr. Caldwell's Syrup Pepsi through our druggist, J. W. Watson, which gave me immediate relief, and I afterward bought a fifty cent bottle, which I can truthfully say gave me more relief than anything I have ever tried.—R. B. Hurd. Sold by the W. & W. pharmacy.

**HORSE BECAME UGLY**

Strangers Had Trouble With a Fractious Animal on the Street.

Two strangers driving a fractious horse had some trouble with the animal on Sixth street last evening. When near the corner of Jackson street it became ugly and began to kick, smashing the shafts and front of the buggy. One of the men jumped from the vehicle while the other made strenuous efforts to control the horse.

Dr. Clark and several others succeeded in getting hold of the bridle and the animal was finally quieted.

Don't miss seeing our building lots in Gardendale before buying; will sell cheap; good location, and on easy payments. J. T. and W. S. Smith, at lumber office, 294 East Market street.

## CHAPTER IV.—Continued.

I walked out into the black bank of the night, but could neither see nor find anything. I made a complete circuit around the oasis of light from the fire, and all was peaceful and quiet. I returned to the log, ready to scold Old Put for giving a false alarm, but restrained, reflecting that he might be nervous and irritable owing to his lack of food.

"What did you find?" asked the girl, looking at me with bright eyes.

"Nothing."

"I thought you wouldn't. It was a wildcat or maybe a harmless little squirrel."

"Aren't you afraid of the wild animals?"

"Not with such a brave rebel as you near me."

I opened my eyes a little wider and looked at her. It was the first time that she had complimented me even in that half handed way, and I was surprised.

"I thought you did not allow me the possession of any desirable quality whatsoever," I said.

"You are improving," she replied. "Perhaps it is due to my society. I may yet make you a loyal follower of King George and save you from the hangman."

"I had my doubts about the 'loyalty,' which is a term devised for the protection of sovereigns in their crimes, but I said nothing just then. She, too, said nothing more. The heap of coals grew and glowed in the depths with deep crimson and scarlets, throwing out a generous heat and wounding me to sleep. Despite my sense of caution and the efforts of my will, my eyelids drooped. The castles in the coals became more indistinct and wavered as if they were made of red mist."

Old Put whinnied again and raised his head high in the air like one who listens. I was wide awake in an instant and on my feet again.

"Sixth," I said, "if I find that you have given a false alarm a second time you shall have nothing to eat in the morning."

"I wouldn't bother about it," said the girl. "It's only a squirrel or a rabbit. Any horse would notice the passing of such an animal. Their senses are keener than ours."

She was growing very considerate of me!

But I searched the wood again, and finding nothing returned to my old and comfortable place. Old Put was restless and shuffled about; but, angry at his idle alarms, I commanded him roughly to keep quiet, and he obeyed.

The girl was humming softly to herself as if she were thinking of her far-away English home. I supposed she was lonely and homesick, and again some pity for her crept into my heart.

"Are you singing of your sweetheart?" I asked, meaning to cheer her up.

"I have none," she replied.

"Not now perhaps, but you will have some day."

"That is a different matter."

"What kind of a sweetheart would you choose?"

"A soldier, a gallant English soldier, one loyal to his king through all."

She continued to hum her little song, whatever it was. Something stirred in the wood, and Old Put, despite my previous command, whinnied and stamped his feet.

"I found that beast, whatever it may be!" I said. "It must be a wildcat attracted by the light of our fire."

"Let the wildcat go," she said.

"Listen and I will sing you a song that will tell you what my future betrothed and husband shall be. It's an old Scotch song of devotion and loyalty, but we English sing it, too, and like it as well as the Scotch. 'Dumbarton's Drums' we call it."

"Sing," I said.

Then she sang:

"Dumbarton's drums beat bonnie O,  
When they mind me of my dear Johnnie O!  
How happy am I,  
When my soldier is by,  
When he kisses and blesses his Annie O!  
Tis a soldier alone can delight me O,  
For his graceful looks do invite me O,  
While guarded in his arms,  
I'll fear no war's alarms."

Neither danger nor death shall e'er frighten me O!

"My love is a handsome laddie O,  
Gentle, but ne'er foppish nor gaudy O!  
Though commissions are dear,  
Yet I'll buy him one this year,  
For he'll serve no longer a cadet O!  
A soldier has honor and bravery O,  
Unacquainted with rogues and their knavery O!  
He minds no other thing  
But the ladies or the king,  
For every other care is but slavery O!"

"Then I'll be the captain's lady O!  
Farewell, all my friends and my daddy O!  
I'll wait no more at home,  
But I'll follow with the drum,  
And whence er that comes I'll be ready O!  
Dumbarton's drums sound bonnie O!  
They are sprightly like my dear Johnnie O!  
How happy shall I be,  
When on my soldier's knee,  
And he kisses and blesses his Annie O!"

Her voice was deep and true, and the old war ballad was music in my ears. As the melody rose and fell in the lonely night my eyes drooped again and my brain became dim with advancing slumbers like a child soothed to sleep by the song of his mother. I was as tired as a dog. I had ridden long and far and had worked much, and every nerve and muscle in me cried aloud for rest, but I roused myself as she finished and the last note of her song died in the darkness.

"That was a complete job, Miss Howard," said the leader, "well done by everybody, and your part is the best done of all."

"You have rescued me from the hands of a rebel, Captain Crowder," she replied, "and I am back with my own people, for both of us thank you."

I thought it was time for me to say something.

"It is true you have trapped me between you, Captain Crowder, for so I hear the lady call you," I said, "but I wouldn't exult, because the next chance might be mine, and it would hurt your feelings for me to pay you back."

"I don't know about any next chance for you," he said, "because here in the south we generally hang rebels."

I did not reply to his threat, thinking that I had said enough, and turned my head away. My glance fell now upon Old Put. His eyes were full of reproach to me. The I told you so expression was there, and the I am sorry for you and myself expression was mingled with it. "I will never lose favor in you again, best of all comrades!" I signaled back.

Captain Crowder, having seized me, also seized my camp, evidently with the intention of spending the night there, and he posted one sentinel, while the others sat around the fire, making themselves comfortable. The girl occupied her old seat on the tree trunk, leaning against the projecting bough.

"Do you know where my father is, Captain Crowder?" she asked.

"With Tarleton," he replied.

"And where is Tarleton?"

"Hot on the chase of the rebel major and his men."

"Can we overtake Tarleton by noon tomorrow?"

"Undoubtedly, for he has to go rather slowly, not knowing just where Morgan is. He doesn't want to run past the game. Morgan's hard to catch, but when Tarleton once comes up with him there'll be an end to one rebel army."

I listened to this conversation with the closest attention and continued to listen while he described Tarleton's movements, force and equipment. If I could escape him and the hangman's rope with which he had threatened me, this information would be of great value to us. I was glad that, for the sake of precaution, I had torn up the girl's letters and other written facts about us when I captured her, for now she could rely only upon speech. I waited for her to tell Crowder about us, but she said nothing upon that point, and I reflected that her reticence was natural, as she would want to give her information herself to Tarleton, and thus secure all the credit instead of letting the guerrilla, Crowder, claim at least half of it.

Two of the men disappeared in the wood and returned in a few moments, leading the horses of the band, which they tethered to the trees near by. I guessed that they had seen the light of our fire at a distance and leaving their horses there had crept upon me.

"You will excuse us, Miss Howard, while we eat and drink a little," said Crowder. "We've ridden far today, and we're tired and hungry."

Their appearance was sufficient indication that they needed food and rest, for the grime of travel was thick upon them. They rummaged their haversacks and saddlebags and produced bread and meat, which they began to eat greedily. They were absorbed like wild animals in their repast and paid no attention to anything else.

The girl rose and walked over to me. Reaching down, she seized the end of my silk handkerchief, which was projecting from my pocket, and jerked it forth. She threw it into the fire and watched it burn, the red heat gripping the delicate silk and converting it in a moment to ashes. Then she turned upon me a face of flame.

"You dared to bind me," she said— "you a rebel and I an English woman, the daughter of a loyal English officer! You dared to insult me so!"

"And I presume that is the reason you burn the handkerchief with which I bound you," I said.

"Yes."

"Now that you have begun the job of burning I suppose you would like to burn me, too, as I am the man who tied the handkerchief, and I did so because you deserved it."

She was silent, but her cheeks were red as ever.

"I congratulate you upon your rescue, your rescuers, your company," I said.

"They are loyal British soldiers."

"They wear the British uniform, any ruffian and robber may do that."

"I have seen Captain Crowder himself in the army of Cornwallis. My father knows him, and I do too."

"You know his face, and that is all."

He may be a good enough British soldier when he is with Cornwallis, but elsewhere he is anything that suits his purpose. Look at him and his comrades now."

Every man had produced a bottle and was drinking deeply from it. The odor rose and was too strong to be swept away by the wind.

"Look at them," I repeated. "I congratulate you on your company."

They drank deeply and replaced their bottles in their pockets, where I was sure they were not destined to remain long. The red fled from the girl's face, but she said nothing, and giving me the same curious look of mingled triumph and defiance went back to her old place on the log. There she sat, staring straight into the fire, as if she were wholly oblivious of me and the other men around her.

The partisans were in great glee. They laughed and cracked rough jokes, and presently, as I had expected, pulled out the bottles again and took a long, deep draft, once, twice, thrice. Their faces flushed from the effect of the strong spirits, and the loudness and roughness of their talk increased. Crowder, the leader, was the loudest and roughest of them all.

"That was a fine song you sang to that fellow there when you set him a-napping for us to catch, Miss Howard," he said presently, "and we like music, too, don't we boys?"

"Yes, yes!" they roared, all together.

"And won't you kindly sing that song or another as good for us, Miss Howard?" he continued.

She made no answer, staring straight at the red embers, her cheeks pale.

## ONE WAY OUT

A Resident of East Liverpool Shows the Way.

Only one way to cure a bad back. Liniment and plasters may relieve it.

They won't cure it.

Backache means sick kidneys.

Doan's Kidney Pills cure all kidney ills.

East Liverpool people prove this.

Read a case of it:

Mr. G. H. Garner, the well known manufacturer of ice cream, at 168 Jackson street, says: "My trouble set in with a soreness and stiffness over my whole body; my appetite was poor and I was annoyed a good deal with bloating at the stomach. There was also a urinary difficulty, and I felt generally used up. I tried two or three different remedies, but they did not do me the least good. Having heard Doan's Kidney Pills so highly spoken of, I made up my mind to try them and I procured a box at the W. & W. pharmacy. I did not take over half of it before I was entirely free from any trouble, my appetite was good and my old time vigor restored. I recommended them to many of my friends, among them P. J. Green, V. S., and they all speak of them in the highest terms."

## The Doctor's Indiscretion.

"There is no profession which calls for the use of more discretion than the profession of medicine," remarked a well known physician of this city. "Just to give you an instance:

"I came home late one evening after a very busy day and was told by the office boy that a certain Mrs. S. had called me up three times on the telephone. As her young hopeful had scarlet fever and I was afraid he had taken a sudden turn for the worse, I got central to connect me with her house without delay.

"The missus has gone to bed, sir," said the voice of a maid in reply, "but she was so anxious to know if she could wash Tommy's face."

"I called back that she had better ask the nurse if it was dirty. Now they are here again."

"We've ridden far today, and we're tired and hungry."

Their appearance was sufficient indication that they needed food and rest, for the grime of travel was thick upon them. They rummaged their haversacks and saddlebags and produced bread and meat, which they began to eat greedily. They were absorbed like wild animals in their repast and paid no attention to anything else.

## Y.M.C.A. JUBILEE

Delegates at Boston From Different Quarters of the Globe.

## CENTENNIAL TO OPEN TODAY.

It was Expected That Nearly 5,000 Delegates Will Be in Attendance at the Six Days' Sessions—Interesting Exhibits.

Boston, June 11.—Streaming into Boston from nearly every quarter of the globe came delegates Monday to the semi-centennial and international convention of the Young Men's Christian Association of North America. Practically every civilized country in the world likely will be represented today when the convention is called to order in the exhibition hall of the Mechanics building, and it is confidently expected that there will be nearly 5,000 delegates from the different associations in attendance during the six days the convention is in session.

Those who reached here Monday afternoon scarcely paused to shake the dust of travel from their clothes before appearing at the headquarters, where a large force of officials was ready to assign suitable boarding places and attend to the needs of the visitors.

Probably not a delegate left the building without a thorough inspection of the Jubilee exhibit in one of the large halls of Mechanics' building. This consists of photographs of Y.M.C.A. camps, athletic teams, gymnasiums and diagrams of work done in Bible study, sent by associations in all sections of the country. Awards of merit, consisting of blue ribbons and red ribbons, for first and second prizes, had been distributed among the different classes of exhibits.

The exhibit contained material from all kinds of associations in all departments of activity, and designed to graphically present the history of the movement in the American associations for the past 50 years.

Aside from this there was material showing the nature and extent of work done in the most important Bible study and religious work activities, the practical educational work in its numerous phases of library, reading room, literary societies and valuable class work; the important physical work and all that stands for symmetrical body building and clean sport; the local work, employment bureaus, women's auxiliary, and the newly appreciated and vastly important work for boys.

The first of the delegates to arrive were those from the most distant clime, one party from Adelaide, Australia and another from Japan getting in early. The first named party, however, journeyed west, while the Japanese delegates went east to the Y.M.C.A. mecca of 1901. Another party from Minneapolis came in early in the day and were promptly and warmly welcomed by the local committee.

## THREAT OF A JUDGE.

Would See Whether Preachers Could Be Held For Contempt.

Denver, June 11.—Judge Peter L. Palmer administered a severe judicial rebuke to more than 100 so-called reformers who appeared in his court to protest against the granting of injunctions against the city and fire and police boards in the cases of residents claiming the right to serve tanks on Sunday with meals, and a cookkeeper who held that under the law he was entitled to sell liquor to men at the bar.

The judge closed his remarks by declaring that he intended to make judicial inquiry into the question of whether or not certain clergymen of Denver, who denounced him in their pulpits, were in contempt of court, and that if he satisfied himself that they were he would immediately take their cases and give them the full punishment under the laws.

## WILL THEY BE REUNITED?

Dr. MacArthur So Intimated as to the Booths.

New York, June 11.—The Rev. Dr. Robert F. MacArthur has made the following significant announcement in Calvary Baptist church:

"Next Sunday night Ballington Booth will speak here on the work in which he is engaged. We very rarely see up our pulpit, but on this occasion we do so the more readily because of the possible reconciliation between Ballington Booth's father and himself."

REV. MORGAN EMBARKS.

Bank Thief Pleaded Guilty.

Mr. W. R. J. Stratford, who is drilling the Landrum well, 12 miles southwest of Beaumont, Tex., came in the other afternoon and brought with him a metallic substance which was said by persons who saw it to be gold. The substance was taken from the Landrum well at a depth of 900 feet and is described as a piece of free gold weighing 2½ pennyweights, says the St. Louis Globe-Democrat. It was found in a blue or a black sand, and many seashells came out of the well from this depth.

## SOME NEWS OF INTEREST.

Elaborate preparations have been made for the celebration of the silver jubilee of the ordination of Dean B. J. Mulligan, rector of the Roman Catholic church of the Immaculate Conception, of Camden, N. J.

Much of the business section of the town of Wilson, Niagara county, N. Y., was burned. The loss is \$40,000. The postoffice, Sutherland's hotel and many stores were consumed. The village had no fire department.

Rome advises say it is rumored about the vatican that an American envoy is en route for Rome from President McKinley to settle the much mooted question of Catholic religious and property interests in Cuban and the Philippines.

Advices from Amsterdam say that former President Kruger has gone to The Hague because Queen Wilhelmina of Holland, Kaiser Wilhelm and Czar Nicholas have offered their good offices in the mediation of affairs in South Africa under the provisions of The Hague convention.

The inquest into the death of Dr. William Hudson Daly was held by Coroner Jesse M. McGeary. A verdict of suicide by shooting was rendered. No witnesses were placed on the stand, the verdict being rendered by the jury from the affidavits of Mary Short, his former housekeeper, and Dr. W. S. Foster.

The confessed murderer of millionaire Rice, in New York, Valet Jones, is fast approaching death. He has been in Dr. McAlister's sanitarium for about five weeks. Physicians in attendance think that Jones, who is haunted by the dying laugh of the man he says he killed at Albert D. Patrick's order, will last only a few days longer.

Albert T. Patrick, Morris Meyer and David Short were arraigned before Judge Cowing in New York, and all, through their counsel, Robert Moore, pleaded not guilty. The indictments charged Patrick with murder, forgery and perjury, and Meyer and Short with forgery and perjury. Patrick smiled and the other two prisoners looked unconcerned.

The temporary appointment of J. O. Brown to the directorship of the department of public safety at Pittsburgh was made permanent by Recorder A. M. Brown. The same action was taken with respect to City Solicitor Clarence Burleigh. The announcement of the appointments was made at the conclusion of a conference that lasted over an hour in the recorder's office.

The report that Charles M. Schwab has purchased control of the Bethlehem Steel company is premature. Joseph Wharton, from whom Schwab was said to have bought 80,000 shares of Bethlehem stock, denied that his holdings had been parted with, but admitted that negotiations were being conducted with Schwab and that they might be concluded Wednesday. He said he did not know for whom Schwab was acting.

The body of 11-year-old Bertha Jackson, the adopted daughter of R. S. Flower, a dairyman living at Poplar Springs, near Atlanta, Ga., was found. The girl had been missing from home. The throat of the child was cut. A physician testified that she had been assaulted. Cathro English, colored, has been arrested charged with the crime. English left Flower's employ the night after the girl disappeared. He will probably be girl disappeared. He was taken to Atlanta for fear of lynching.

Plans are reported to be under way to connect Louisville and Nashville by another railroad. The promoters, it is said, propose to buy or lease the Shelbyville and Bloomfield road, build it to Lebanon and connect there with the Southern division of the Cumberland and Ohio. This road will be extended from Greensburg to Scottsville, where it will connect with the Chesapeake and Nashville to Gallatin, when the road will be built into Nashville. It is claimed that this will give a 35-mile shorter route to Nashville and open up vast coal and timber lands.

The Central News Rome correspondent telegraphs that official circles in Rome are expecting important developments in Crete because of news received in the Italian capital that the Cretans have decided on the annexation of the island to Greece, and that preparations are in progress at Athens for a military occupation of the island. The dispatch further states that on Saturday Senor Prinetti, the Italian minister of foreign affairs, held a conference with the British, Russian and French ambassadors at Rome against the Cretan situation.

A Bucharest special says that the city council there was the scene of a desperate fight. Councilman Ciacanelli accused a fellow councilman, Rocco, of being a professional smuggler. Rocco attacked Ciacanelli and the latter knocked him down, nearly murdering him with his first blow. Gendarmes went to assist Rocco, whereupon strangers in the gallery hurried to help Ciacanelli. In the clash of the two sides blood flowed freely until more gendarmes arrived and ended the struggle. Eighteen persons were severely wounded in the melee.

REV. GAMEWELL TALKED.

He Described at Missionary Meeting the Siege of Pekin.

Clifton Springs, N. Y., June 11.—The address before the International Missionary Union Sunday evening was delivered by Rev. F. D. Gamewell, of China, who took for his subject "The Siege of Pekin as seen by a missionary from inside the breast works."

His remarks were all based upon personal observation and were very interesting. At a platform meeting Monday the subject of discussion was "Medical missions; their value in opening doors of opportunity for evangelistic and other works." All the speakers were agreed upon the good points of this work, owing to its influence to establish faith between the heathen and the missionary.

A Judge Resigned.

Hartford, Conn., June 11.—Chief Justice Charles B. Andrews, of the supreme court, has sent his resignation to Governor McLean. Ill health is the reason for the resignation, and the date fixed for retirement is Oct. 1.

## NEW TRANSIT LEGISLATION.

Supplement to Foch Bill Introduced in Pennsylvania Senate—Another Measure Offered.

Harrisburg, June 11.—A highly important incident of the rapid transit legislation took place in the senate last night when a supplement to the Foch act was introduced by Senator B. K. Foch, of Union, and a new bill was presented by Senator John M. Scott, of Philadelphia.

The supplement provides that any company chartered to build either an elevated or an underground railway shall have power and authority to build either an elevated or an underground railway, or both, over the route described in its charter.

The Scott bill provides that underground or elevated, or partly underground and partly elevated railways shall be located only upon streets in thickly populated regions and that the question of necessity shall be passed upon by a board consisting of the governor, the secretary of the commonwealth and the attorney general, after 30 days' notice, published as prescribed by the board.

In public interest the Scott bill is of the greater importance. The advocates of the measures say both will go through the senate and house in the shortest time allowed by the rules and the calendar.

### ORDINANCES INTRODUCED.

Fourteen For New Railways Offered at Philadelphia.

Philadelphia, June 11.—Fourteen ordinances were introduced in councils, 13 of which asked franchises for various street railway companies, the remaining one providing for the revoking of all privileges granted to companies which have not taken advantage of these privileges within the time fixed by previous ordinances.

The franchises were for three general classes of roads, underground, surface and elevated. The five elevated road ordinances each contain the same verbiage and only differ from each other in the list of streets to be occupied. The seven surface ordinances are drawn in similar fashion. One bill authorizes the construction of a subway under Broad street.

All of the bills were introduced in the interest of two principal companies, known as the Surface Railway company and the Elevated Railway company.

The charters were granted by the state legislature last week, with the provision that the consent of the municipality must be secured before they become operative.

### Must Be Present to Vote.

Harrisburg, June 11.—Speaker William T. Marshall last night announced to the house that he had instructed the clerks not to record any member present and not voting on any question hereafter. The statement was the result of several ugly rows over alleged falsified roll calls and was made incidentally to an attempt by "Farmer" Creasy (Democrat), of Columbia, to defeat approval of Friday's journal containing the vote on the Lackawanna hospital bill.

### Wabash May Have Bought It.

Logansport, Ind., June 11.—The Eel River Railroad company was sold here at receiver's sale to E. Smith, of New York, representing the stockholders' committee. Mr. Smith was the only bidder and the property was knocked down to him for \$1,000,000. It is generally considered that the Wabash Railroad company, which has operated the road under a 99-year lease, is the real purchaser.

### Appointed Superintendent of Awards.

Buffalo, N. Y., June 11.—Dr. Henry Pritchett, of Boston, president of the Massachusetts school of technology, has been selected by the Pan-American board of directors to serve the exposition as superintendent of awards. A jury of awards will be selected to act with Dr. Pritchett.

### WEATHER FORECAST.
